Community Reinvestment Act

The Community Reinvestment Act ("CRA") was enacted by Congress in 1977 (12 U.S.C. 2901) with the intent to encourage depository institutions to help meet the credit needs of the communities in which they operate. CRA is implemented through Regulations 12 CFR parts 25, 228, 345, and 195. Based on total asset thresholds set in the CRA implementing regulations, Heritage Bank qualifies as a "Large Bank," thus requiring the disclosures and information presented in this document. For purposes of CRA, Heritage Bank has defined its assessment areas as consisting of the following counties, in their entireties unless otherwise noted:

Assessment Area Name	State	Counties within Assessment Area
Puget Sound CSA	WA	Island, King, Mason, Pierce, Skagit, Snohomish, Thurston & Kitsap
Bellingham MSA	WA	Whatcom
Yakima MSA	WA	Yakima
Longview MSA	WA	Cowlitz
Washington State Non-MSA	WA	San Juan, Clallam* & Jefferson*
Portland-Vancouver-Hillsboro MSA	WA	Clark
	OR	Multnomah, Washington
Eugene-Springfield MSA	OR	Lane
Boise City MSA	ID	Ada, Canyon, Gem, Boise

**Partial County Delineation*

This is a public document. In accordance with CRA, Heritage Bank makes this document available to the public for inspection at the public's request and at no charge. Additionally, upon public request, Heritage Bank must provide copies of the information in this public file, in paper format or in another form acceptable to the person making the request. The regulations permit the Bank to charge a reasonable fee for reproduction of the public file, but the fee must not exceed the cost of copying and, if applicable, mailing.

The information contained in this public file is current as of at least April 1, 2026, as required by regulation. However, Heritage Bank annually revises the April 1st CRA Public File to include the most current CRA Disclosure Statement within three (3) business days of publication, also required by regulation. Additionally, Heritage Bank, at its discretion, may update its CRA Public File for inclusion of revised branching and Assessment Area information related to recent branch additions, mergers and/ or acquisitions.

Questions or comments regarding Heritage Bank's CRA Public File may be addressed to:

Community Reinvestment Act Notice

Under the Federal Community Reinvestment Act (CRA), the Federal Deposit Insurance Corporation (FDIC) evaluates our record of helping to meet the credit needs of this community consistent with safe and sound operations. The FDIC also takes this record into account when deciding on certain applications submitted by us.

Your involvement is encouraged.

You are entitled to certain information about our operations and our performance under the CRA, including, for example, information about our branches, such as their location and services provided at them; the public section of our most recent CRA Performance Evaluation, prepared by the FDIC; and comments received from the public relating to our performance in helping to meet community credit needs, as well as our responses to those comments. You may review this information today.

At least 30 days before the beginning of each calendar quarter, the FDIC publishes a nationwide list of the banks that are scheduled for CRA examination for the next two quarters. This list is available from the Regional Director, FDIC, 25 Jessie Street at Ecker Square, Suite 2300, San Francisco, CA 94105. You may send written comments about our performance in helping to meet community credit needs to Compliance Department - CRA, Heritage Bank, 3615 Pacific Ave, Tacoma, WA 98418 and FDIC Regional Director. You may also submit comments electronically through the FDIC's website at *www.fdic.gov/regulations/cra*. Your letter, together with any response by us, will be considered by the FDIC in evaluating our CRA performance and may be made public.

You may ask to look at any comments received by the FDIC Regional Director. You may also request from the FDIC Regional Director an announcement of our applications covered by the CRA filed with the FDIC. We are an affiliate of Heritage Financial Corporation, a bank holding company. You may request from the Manager of Applications, Federal Reserve Bank of San Francisco, 101 Market Street, San Francisco, CA 94105, an announcement of applications covered by the CRA filed by bank holding companies.

Written Public Comments and Bank's Responses
Current Year & Prior Two Calendar Years

In 2024, 2025, and through October 1, 2026, Heritage Bank did not receive any written public comments specifically related to the bank's performance in helping meet community credit needs.

GLOSSARY 87

INSTITUTION RATING

INSTITUTION'S CRA RATING: This institution is rated **Satisfactory.**

An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment areas (AAs), including low- and moderate-income (LMI) neighborhoods, in a manner consistent with its resources and capabilities.

PERFORMANCE LEVELS	PERFORMANCE TESTS		
	Lending Test*	**Investment Test**	**Service Test**
Outstanding			
High Satisfactory		X	X
Low Satisfactory	X		
Needs to Improve			
Substantial Noncompliance			
** The Lending Test is weighted more heavily than the Investment and Service Tests when arriving at an overall rating.*			

The Lending Test is rated Low Satisfactory.
Lending levels reflect adequate responsiveness to AA credit needs. A high percentage of loans are made in the institution's AAs. The distribution of borrowers reflects, given the product lines offered by the institution, poor penetration among business customers of different sizes and retail customers of different income levels. The geographic distribution of loans reflects adequate penetration throughout the AAs. The institution exhibits an adequate record of serving the credit needs of the most economically disadvantaged areas of its AAs, very small businesses, and low-income individuals, consistent with safe and sound banking practices. The institution has made a relatively high level of community development loans and makes limited use of innovative and/or flexible lending practices in order to serve AA credit needs.

The Investment Test is rated High Satisfactory.
The institution has a significant level of qualified community development investments and grants, occasionally in a leadership position, particularly those that are not routinely provided by private investors. The institution exhibits good responsiveness to credit and community development needs. The institution makes significant use of innovative or complex investments to support community development initiatives.

The Service Test is rated High Satisfactory.
Delivery systems are accessible to essentially all portions of the institution's AAs. To the extent changes have been made, the institution's opening and closing of branches has improved the accessibility of its delivery systems, particularly in LMI geographies and to LMI individuals. Services, (including, where appropriate, business hours) do not vary in a way that inconveniences certain portions of the AAs, particularly LMI geographies and individuals. Lastly, the institution provides an adequate level of community development services.

DESCRIPTION OF INSTITUTION

Heritage Bank (HB) is a state-chartered commercial bank headquartered in Olympia, Washington. The bank is wholly-owned by the Heritage Financial Corporation, which is also based in Olympia. HB's subsidiaries include the Heritage Bank Community Development Entity (HBCDE), which makes loans to businesses in economically distressed areas and finances low-income housing tax credit (LIHTC) projects. This evaluation includes all activities provided by HB and the HBCDE. The bank received a Satisfactory rating at its previous FDIC performance evaluation, dated July 5, 2023, using the Interagency Large Institution Examination Procedures.

HB is a full-service retail bank that operates 66 branches across Washington, Oregon, and Idaho. The bank acquired Kitsap Bank effective January 31, 2026. Since the prior evaluation, HB opened or acquired 19 branches and closed 4 branches. Refer to the Service Test sections for details of the impact on LMI individuals and geographies throughout the bank's AAs. HB remains primarily a commercial lender, offering a range of business term loans, business lines of credit, and commercial real estate loans. HB stopped offering consumer residential mortgages beginning in 2024; however, consumer loan products include home equity lines of credit, personal lines of credit, boat and recreational vehicle loans, and deposit-secured loans. Deposit products include personal and business checking, savings, individual retirement, and money market accounts, as well as certificates of deposits.

As of March 31, 2026, HB reported $8.5 billion in total assets, including $5.7 billion in loans and leases, and $1.7 billion in securities. The bank also reported $7.3 billion in total deposits. This represents a 17.4 percent increase in total assets, 38.6 percent increase in total loans and leases, 19.7 percent increase in total securities, and 25.1 percent increase in total deposits since the prior evaluation. As shown in the following table, commercial loans, including commercial real estate and commercial and industrial loans, compose the majority of the bank's outstanding loan portfolio at 64.2 percent. Residential real estate loans, including loans secured by 1-4 family residential properties and multifamily properties, represent 21.5 percent of the loan portfolio. Finally, agricultural lending, including loans secured by farmland and agricultural loans, and consumer loans represent 0.9 percent and 0.2 percent of the loan portfolio, respectively.

Loan Portfolio Distribution as of 3/31/2026		
Loan Category	**$(000s)**	**%**
Construction, Land Development, and Other Land Loans	394,395	6.9
Secured by Farmland	28,841	0.5
Secured by 1-4 Family Residential Properties	713,668	12.5
Secured by Multifamily (5 or more) Residential Properties	513,782	9.0
Secured by Commercial Real Estate	2,921,869	51.1
Total Real Estate Loans	**4,572,555**	**79.9**
Commercial and Industrial Loans	748,883	13.1
Agricultural Production and Other Loans to Farmers	23,955	0.4
Consumer Loans	13,049	0.2
Obligations of State and Political Subdivisions in the U.S.	275,956	4.8
Other Loans	69,147	1.2
Lease Financing Receivable (net of unearned income)	18,693	0.3
Less: Unearned Income	-	-
Total Loans	**5,722,238**	**100.0**
Source: Reports of Condition and Income; Due to rounding, percentages may not total		

Examiners did not identify any financial, legal, or other impediments that affected the institution's ability to meet AA credit and community development needs over the review period.

DESCRIPTION OF ASSESSMENT AREAS

HB operates in nine AAs throughout three states and one multistate AA. Each state and multistate AA represents a separate rated area. The following table details the rated areas, AAs, and review procedures used for each AA in the order they are presented in this evaluation.

Description of Assessment Areas and Review Procedures		
Rated Area	**Assessment Area**	**Review Procedures**
Washington	Puget Sound Bellingham Yakima Washington Non-MSA Longview Spokane	Full-Scope Full-Scope Limited-Scope Limited-Scope Limited-Scope -
Portland Multistate AA	Portland Multistate	Full-Scope
Oregon	Eugene	Full-Scope
Idaho	Boise	Full-Scope

Oregon and Idaho are new rated areas, as they were not included in the prior evaluation due to the timing of their additions to the bank's AA. The Spokane AA is new, effective May 4, 2026, with the opening of an HB branch in the area. Given the late addition of Spokane as an AA during the review period, evaluation of the area is limited to its impact on the bank's retail banking services

under the Service Test and consideration of any community development activities benefiting the area since its addition. Refer to the rated areas and individuals AAs for additional information.

SCOPE OF EVALUATION

General Information

Examiners used the Interagency Large Institution Examination Procedures to evaluate HB's CRA performance. This evaluation covers the period from the prior evaluation, dated July 5, 2023, to the current evaluation, dated July 6, 2026. Based on the distribution of branches, deposits, and reported loans, the bank's performance in Washington contributed the greatest weight to overall conclusions followed by the Portland Multistate AA. Based on the same criteria, the Oregon and Idaho rated areas received significantly less weight in determining bankwide performance conclusions; refer to the following table.

Rated Area Breakdown of Loans, Deposits, and Branches						
Rated Area	**Loans**		**Deposits**		**Branches**	
	$(000s)	**%**	**$(000s)**	**%**	**#**	**%**
Washington	934,921	78.9	4,893,925	84.6	58	87.9
Portland Multistate AA	196,929	16.6	841,407	14.5	6	9.1
Oregon	35,188	3.0	31,295	0.5	1	1.5
Idaho	18,465	1.6	19,943	0.3	1	1.5
Total	**1,185,503**	**100.0**	**5,786,570**	**100.0**	**66**	**100.0**
Source: Bank Data; FDIC Summary of Deposits (6/30/2025); Due to rounding, totals may not equal 100.0 percent						

Activities Reviewed

Considering HB's business strategy, loan portfolio composition, and lending activity during the evaluation period, examiners determined that the bank's primary product lines are small business and residential real estate loans. The bank made a nominal number of small farm and consumer loans over the evaluation period and analyzing these loan products would not meaningfully change performance conclusions; therefore, small farm and consumer loans are excluded from this evaluation. For the Lending Test, examiners analyzed the universe of small business and residential real estate loans originated or purchased from January 1, 2023, to December 31, 2025, as reported pursuant to the CRA and HMDA. Over the review period, the bank made 1,971 small business loans totaling $605.9 million and 1,294 residential real estate loans totaling $767.5 million. While HB exited the traditional consumer mortgage loan market beginning 2024, the bank continued to report both closed- and open-end loans under the HMDA in 2024 and 2025, and these products are evaluated together as residential real estate loans throughout the evaluation. Given the volume of loans made by product, HB's small business lending performance received greater weight than residential real estate lending performance in making conclusions for the retail lending analysis.

Examiners compared HB's lending performance to the aggregate performance of other CRA and HMDA reporting lenders operating within each AA, as well as applicable demographic data. Small business demographics are based on annual D&B survey data and residential real estate

demographics are based on the 2020 Census. Greater consideration is given to lending performance compared to aggregate data than demographics, as aggregate data is a better indicator of actual credit demand each year. Additionally, while examiners analyzed lending by number and dollar amount of loans made, greater emphasis is placed on lending by number, which better represents the number of businesses and individuals served.

The evaluation of community development loans, investments, donations, and service hours includes all qualified activities provided from the date of the prior evaluation July 5, 2023, through July 6, 2026. Examiners evaluated HB's community development activities quantitatively based on the institution's financial capacity, as well as qualitatively based on the impact of those activities on the bank's AAs.

The Investment Test includes new qualified investments and prior period investments with outstanding balances as of the evaluation date. The Service Test includes an analysis of delivery systems for providing retail banking services, including full-service branches, ATMs, and alternative delivery systems available over the review period; the impact of branch openings and closings since the prior evaluation; retail banking products targeted to LMI individuals; and community development services targeted to AA needs. Refer to the appendices for a description of all criteria under the Lending, Investment, and Service Tests.

CONCLUSIONS ON PERFORMANCE CRITERIA

LENDING TEST

HB's Lending Test performance is rated Low Satisfactory. This conclusion is consistent with the bank's performance in the Washington, Portland Multistate AA, Oregon, and Idaho rated areas.

Lending Activity

HB's lending levels reflect adequate responsiveness to AA credit needs. The bank's performance under this criterion was consistent across the rated areas. Lending trends for the products reviewed were consistent across the AAs. Annual small business lending levels were generally consistent over the review period; however, the total number of small business loans made decreased significantly because of the discontinuation of the SBA's Paycheck Protection Program (PPP), which was only offered in 2020 and 2021; refer to the Innovative or Flexible Lending Practices section for more information.

Residential real estate lending decreased annually from 2023 through 2025, and the total number of originated loans decreased significantly from the previous evaluation. This is due to changes in the interest rate environment and the bank's business strategy. Interest rates were near zero during the prior review period, and the Federal Reserve started raising interest rates in March 2022. HB stopped offering traditional consumer mortgage loans beginning in 2024. While the bank continues to offer home equity residential products, the decision to exit traditional mortgage lending did impact lending levels.

Assessment Area Concentration

A high percentage of loans are made in the institution's AAs. As shown in the following table, HB made a high percentage of small business and residential real estate loans within its AAs by both number and dollar amount over the review period.

Lending Inside and Outside of the Assessment Area										
Loan Category	**Number of Loans**				**Total #**	**Dollar Amount of Loans $(000)**				**Total $(000)**
	Inside		**Outside**			**Inside**		**Outside**		
	#	**%**	**#**	**%**		**$**	**%**	**$**	**%**	
Small Business										
2023	547	91.0	54	9.0	601	166,271	92.1	14,308	7.9	180,579
2024	601	83.8	116	16.2	717	188,236	85.6	31,707	14.4	219,943
2025	587	89.9	66	10.1	653	186,842	91.0	18,497	9.0	205,339
Subtotal	**1,735**	**88.0**	**236**	**12.0**	**1,971**	**541,349**	**89.4**	**64,512**	**10.6**	**605,861**
Residential Real Estate										
2023	456	89.8	52	10.2	508	288,547	81.9	63,629	18.1	352,176
2024	382	92.3	32	7.7	414	180,365	89.2	21,915	10.8	202,280
2025	343	92.2	29	7.8	372	175,242	82.3	37,780	17.7	213,022
Subtotal	**1,181**	**91.3**	**113**	**8.7**	**1,294**	**644,154**	**83.9**	**123,324**	**16.1**	**767,478**
Total	**2,916**	**89.3**	**349**	**10.7**	**3,265**	**1,185,503**	**86.3**	**187,836**	**13.7**	**1,373,339**
Source: 2023-2025 Reported CRA and HMDA Data; Due to rounding, totals may not equal 100.0%.										

Geographic Distribution

The geographic distribution of loans reflects adequate penetration throughout the AAs. This conclusion is consistent with HB's performance in all rated areas except Idaho, where performance exceeded the overall conclusion.

Borrower Profile

The distribution of borrowers reflects poor penetration among business customers of different sizes and retail customers of different income levels. This conclusion is consistent with the bank's performance across all rated areas.

Innovative or Flexible Lending Practices

The institution makes limited use of innovative and/or flexible lending practices in order to serve AA credit needs. HB participated in 145 innovative and/or flexible loans totaling $85.5 million over the review period. This is a significant decrease from the prior evaluation, where the bank made 2,881 such loans totaling $518.2 million. The decline is due to HB's significant participation in the PPP at the prior evaluation, where the bank received credit for 2,720 PPP loans totaling $394.9 million. The PPP was designed to support basic operating needs of small businesses impacted by the COVID-19 pandemic in 2020 and 2021.

Additionally, with HB exiting the traditional consumer mortgage business in 2024, the bank stopped offering government-backed home loans and mortgage assistance through organizations such as the

Federal Housing Administration (FHA) and Washington State Housing Finance Commission (WSHFC). The bank continues to offer innovative and/or flexible loans through the SBA and Washington State Small Business Credit Initiative (SSBCI); see the table below. The bank's volume of activity as compared to similarly-situated institutions support adequate performance. All innovative and/or flexible lending programs are offered throughout HB's AAs; therefore, this criterion is only discussed at the bankwide level of this performance evaluation.

Innovative or Flexible Lending Programs – Bankwide										
Type of Program	**2023**		**2024**		**2025**		**2026**		**Totals**	
	#	**$(000s)**	**#**	**$(000s)**	**#**	**$(000s)**	**#**	**$(000s)**	**#**	**$(000s)**
SBA	32	26,320	26	12,479	44	34,641	14	3,874	116	**77,314**
SSBCI	-	-	3	246	17	6,221	7	1,300	27	**7,767**
FHA	1	437	-	-	-	-	-	-	1	**437**
WSHFC	1	17	-	-	-	-	-	-	1	**17**
Totals	**34**	**26,774**	**29**	**12,725**	**61**	**40,862**	**21**	**5,174**	**145**	**85,535**
Source: Bank Data										

The following are notable flexible lending practices employed during the evaluation period:

- SBA – HB is a preferred SBA lender. The SBA's 7(a) and 504 programs provide loans to small businesses with lower down payments and flexible terms to assist in opening, expanding, and continuing business operations.

- SSBCI – The SSBCI is administered by the Washington State Department of Commerce in partnership with the U.S. Department of Treasury to increase the flow of capital to underserved and underbanked small businesses. Through the SSBCI, HB offers commercial real estate loans with lower interest rates and flexible terms to help improve cash flow and lower debt payments for qualifying small businesses.

Community Development Loans

HB has made a relatively high level of community development loans. This conclusion is consistent with the bank's performance in all rated areas. Over the review period, the bank made 81 community development loans totaling $281.1 million: 9 loans totaling $42.9 million in 2023; 22 loans totaling $58.3 million in 2024; 30 loans totaling $96.8 million in 2025; and 20 loans totaling $83.0 million in 2026. This volume of activity represents 3.9 percent of average total assets and 6.0 percent of average total loans.

At the prior evaluation, HB made 116 community development loans totaling $573.2 million, representing 8.1 percent of average total assets and 13.7 percent of average total loans. The decrease in community development lending is attributable to the high number of qualified PPP loans at the prior evaluation. The bank's volume of community development lending compared to similarly-situated institutions supports good performance. Examiners evaluated HB's performance to similarly-situated institutions at the bankwide level and in response to community development

opportunities at the AA level. Refer to the individual rated areas and AAs for notable examples of community development loans made over the review period.

Community Development Lending by Rated Area

Source: Bank Data										

INVESTMENT TEST

HB's Investment Test performance is rated High Satisfactory. This conclusion is consistent with the bank's performance in the Washington, Portland Multistate AA, and Oregon rated areas, while performance in Idaho was below the overall conclusion.

Investment and Grant Activity

HB has a significant level of qualified community development investments and grants, particularly those not routinely provided by private investors, occasionally in a leadership position. Total qualified investments represent 2.7 percent of average total assets and 12.7 percent of average total securities. This performance level represents a slight increase from the previous evaluation, when the bank provided $173.9 million in total qualified investments and grants, representing 2.4 percent of average total assets and 12.2 percent of average total securities. HB's performance continues to generally compare favorably to similarly situated institutions. The following table depicts an annual distribution of the institution's qualified community development investment, grant and donations during the review period.

Qualified Investments – Bankwide										
Activity Year	**Affordable Housing**		**Community Services**		**Economic Development**		**Revitalize or Stabilize**		**Totals**	
	#	**$(000s)**	**#**	**$(000s)**	**#**	**$(000s)**	**#**	**$(000s)**	**#**	**$(000s)**

Source: Bank Data										

As reflected in the preceding table, the significant majority qualified community development investments supported affordable housing initiatives, while a plurality of qualified community development grants and donations supported community services targeting LMI populations. Refer to each rated area for details and notable examples of investments or grants made over the review period.

Responsiveness to Credit and Community Development Needs

The institution exhibits good responsiveness to credit and community development needs. The significant majority of community development investment activity supported affordable housing, a primary community development credit need identified throughout the institution's rated areas, particularly Washington and the Portland Multistate AA. A significant volume of activity targeted community services primarily for LMI individuals, which was also an identified need in the bank's AAs; refer to the individual AA narratives for details.

Community Development Initiatives

HB makes significant use of innovative or complex investments to support community development initiatives. The majority of qualified community development investments by dollar are LIHTC investments, which are considered complex as they require more bank resources and expertise to purchase than less complex instruments, such as mortgage-backed securities. LIHTCs provide tax incentives to encourage individuals and corporations to invest in the development, acquisition, and rehabilitation of affordable rental housing. To qualify for the credit, a project must meet strict income limits for eligible tenants. Properties are generally required to remain rent-restricted and only available to LMI tenants for a minimum of 30 years. During the evaluation period, HB participated in 9 new LIHTC projects, totaling $88.7 million. The bank also received credit for 12 LIHTC projects made prior to the review period with $67.9 million outstanding as of the evaluation date.

SERVICE TEST

HB demonstrated High Satisfactory performance under the Service Test. This conclusion is consistent with the bank's performance in the Washington rated area. Performance in the Portland Multistate AA, Oregon, and Idaho rated areas was below the overall conclusion.

Accessibility of Delivery Systems

Delivery systems are accessible to essentially all portions of the institution's AAs. HB operates 66 full-service branches and 1 limited-service mobile/seasonal branch. Those branches include 49 ATMs and 45 of the branches maintain drive-up capabilities. Of the 66 full-service branches, 22 are located in LMI geographies. HB also maintains four Interactive Teller Machines (ITMs) that connect consumers to remote bank tellers through two-way video and audio. Branch and ATM distribution varies by AA, refer to each individual AA for details. Alternative systems for delivering retail banking services are consistent throughout the bank's footprint and include online and mobile banking with features such as bill pay, mobile check deposit, and funds transfer. HB also offers 24/7 telephone banking.

Changes in Branch Locations

To the extent changes have been made, the institution's opening and closing of branches has improved the accessibility of its delivery systems, particularly in LMI geographies and to LMI individuals. Since the prior evaluation, HB acquired 16 branches, opened 3 branches, and closed 4 branches. As shown in the following table, the net effect of the branch changes resulted in three additional branches in low-income census tracts and two branches in moderate-income tracts. Refer to the individual rated and AAs for specific details on the impact of branch changes on LMI areas and individuals.

Net Distribution of Branch Openings and Acquisitions/Closings						
Assessment Area	**# of Branch Openings**	**# of Branch Closings**	**Income Level of Census Tract (+/-)**			
			Low	**Moderate**	**Middle**	**Upper**
Washington	17	2	+3	+2	+5	+5
Portland Multistate AA	1	1	-	+1	-	-1
Oregon	1	1	-	-1	-	+1
Idaho	-	-	-	-	-	-
Total	19	4	+3	+2	+5	+5

Reasonableness of Business Hours and Services

Services, including business hours, do not vary in a way that inconveniences certain portions of the AAs, particularly LMI geographies and individuals. HB's business hours and services are reasonable, convenient, and comparable to other financial institutions operating in the AAs. Operating hours are consistent between branches and accommodate traditional business hours of the communities served from 9:00 a.m. to 5:00 p.m. Most full-service branches maintain an ATM and provide drive-up capabilities. All full-service branches offer the bank's full array of business and consumer deposit and lending products. Refer to subsequent AA sections for additional details regarding business hours and services.

Community Development Services

HB provides an adequate level of community development services. While most of the community development services are not particularly innovative, these services demonstrate the bank's responsiveness to community development needs considering its resources, business strategy, area competition, and available opportunities.

Since the previous evaluation, bank employees provided 2,922 hours of financial expertise or technical assistance to organizations throughout the AAs: 851 hours in 2023; 1,116 hours in 2024; 602 hours in 2025; and 353 hours in 2026. The bank's community development service activity has increased from the previous evaluation, when it received credit for 2,492 service hours. HB's community development service activity falls between that of similarly-situated institutions, supporting adequate performance. The following table illustrates the bank's qualified services by purpose and year.

Community Development Services by Rated Area					
Assessment Area	**Affordable Housing**	**Community Services**	**Economic Development**	**Revitalize or Stabilize**	**Totals**

Source: Bank Data					

DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW

HB's compliance with laws relating to discrimination and other illegal practices was reviewed, including the Fair Housing Act and Equal Credit Opportunity Act. Examiners did not identify any discriminatory or other illegal credit practices.

WASHINGTON

CRA RATING FOR WASHINGTON: SATISFACTORY

The Lending Test is rated: Low Satisfactory
The Investment Test is rated: High Satisfactory
The Service Test is rated: High Satisfactory

DESCRIPTION OF INSTITUTION'S OPERATIONS IN WASHINGTON

HB operates in six AAs within the State of Washington; see the following table. There have been changes to AAs since the prior evaluation due to changes in branch locations; refer to individual AAs for additional details.

Description of Assessment Areas – Washington		
Assessment Area	**Counties in Assessment Area**	**# of CTs**
Puget Sound	King, Snohomish, Pierce, Island, Mason, Skagit, Thurston, Kitsap	1,070
Bellingham	Whatcom	54
Yakima	Yakima	57

Longview	Cowlitz	30
Spokane	Spokane	130
*Source: 2020 Census; Bank Data; *Partial County Delineation*		

SCOPE OF EVALUATION – WASHINGTON

Based on HB's lending activity, deposit volume, and branch distribution throughout the rated area, the Puget Sound AA was evaluated using full-scope procedures; see the following table. To ensure the regular evaluation of the bank's CRA performance in infrequently reviewed AAs, examiners also conducted a full-scope review of the Bellingham AA. The remaining AAs were reviewed using limited-scope procedures. The Puget Sound AA received the greatest weight in determining rated area conclusions, followed in decreasing weight by the Bellingham, Yakima, Washington Non-MSA, and Longview AAs. As discussed previously, HB's performance in the Spokane AA was not evaluated separately and is limited to its impact on the bank's retail banking services under the Service Test and consideration of any community development activities that benefited the area since its entry as an AA beginning April 4, 2026.

CONCLUSIONS ON PERFORMANCE CRITERIA IN WASHINGTON

LENDING TEST

HB's Lending Test performance in Washington is rated Low Satisfactory, which is consistent with the bank's performance in the Puget Sound, Washington Non-MSA, and Longview AAs. The bank's performance in the Bellingham AA exceeded the rated area conclusion, while performance in the Yakima AA was below.

Lending Activity

Lending levels reflect adequate responsiveness to credit needs in the Washington AAs. This conclusion is consistent across the Washington AAs with the exception of the Bellingham AA, where responsiveness was good.

Geographic Distribution

The geographic distribution of loans reflects adequate penetration throughout the Washington AAs. This is consistent with the bank's performance in the Puget Sound AA, while performance in the Bellingham and Longview AAs exceeded the rated area conclusion and performance in the Yakima AA was below. The Washington Non-MSA AA did not have any LMI census tracts for the majority of the review period; therefore, this performance criterion was not considered for the AA.

Borrower Profile

The distribution of borrowers reflects, given the product lines offered by the institution, poor penetration to business customers of different sizes and retail customers of different income levels. This is consistent with the bank's performance in the Puget Sound and Yakima AAs, while performance in the Bellingham, Washington Non-MSA, and Longview AAs exceeded the rated area conclusion.

Community Development Loans

GB has made a relatively high level of community development loans in the Washington rated area. This conclusion is consistent with the bank's performance in the Puget Sound, Bellingham, and Washington Non-MSA AAs. As shown in the following table, HB's performance was below the overall conclusion in the Yakima and Longview AAs, where the bank made no community development loans over the review period. HB also made no community development loans in the Spokane AA; however, this is reasonable given the limited review period for the area. At the prior evaluation, the bank made 80 qualified loans totaling $472.4 million benefiting the Washington rated area, which included a significant number of qualified PPP loans. HB's volume of community development lending as compared to similarly-situated institutions supports good performance.

INVESTMENT TEST

HB's Investment Test performance in Washington is rated High Satisfactory, which is consistent with the bank's performance in the Puget Sound, Bellingham, and Yakima AAs. The bank's performance in the Washington Non-MSA, Longview, and Spokane AAs is below the rated area conclusion.

Investment and Grant Activity

HB has a significant level of qualified community development investments and grants, particularly those not routinely provided by private investors, occasionally in a leadership position. HB made $138.0 million in qualified community development investments in Washington, which represents a 6.7 percent increase from the $129.3 million in qualified activities made in Washington at the previous evaluation. HB's level of qualified community development investments and grants in Washington continues to generally compare favorably to similarly situated institutions. A significant majority of activity by dollar amount supported affordable housing initiatives; refer to the following table. Affordable housing was identified as a significant need in several of the Washington AAs, particularly the Puget Sound AA, which carries the greatest weight.

Community Development Investments by Assessment Area – Washington										
Assessment Area	**Affordable Housing**		**Community Services**		**Economic Development**		**Revitalize or Stabilize**		**Totals**	
	#	**$(000s)**	**#**	**$(000s)**	**#**	**$(000s)**	**#**	**$(000s)**	**#**	**$(000s)**

Source: Bank Data										

As shown in the table above, the bank also made an investment benefiting the broader statewide area that includes HB's AAs. In 2026, the institution made a $912,392 bond investment to help qualified LMI persons and families finance the costs of acquiring primary residences within Washington state for one- or two-unit properties.

Responsiveness to Credit and Community Development Needs

HB exhibits good responsiveness to credit and community development needs. The bank demonstrated responsiveness to the AA through its focus on funding investments targeting the identified community development credit need of affordable housing. Overall, HB funded nearly $136.3 million in qualified investments targeted to affordable housing needs.

Community Development Initiatives

HB makes significant use of innovative and complex investments in the Washington AAs to support community development initiatives; refer to bankwide conclusions for full detail. Over the review period, the bank purchased five LIHTC investments, totaling $112.8 million, for projects throughout Washington.

SERVICE TEST

HB's Service Test performance in Washington is rated High Satisfactory. This conclusion is supported by the bank's performance in the Puget Sound AA. The bank's performance in the other AAs was below the rated area conclusion but still adequate.

Accessibility of Delivery Systems

Delivery systems are accessible to essentially all portions of the institution's Washington AAs. The accessibility of delivery systems varies somewhat throughout the rated area; refer to each individual AA for details. HB operates 58 full-service branches and 48 deposit-taking ATMs in the Washington rated area. Of those 59 total full- and limited-service locations, 43 maintain drive-up capabilities. Of the 58 full-service branches, 20 are within LMI geographies. HB also operates one

limited-service mobile/seasonal branch with a deposit-taking ATM in the Puget Sound AA. Additionally, HB maintains four ITMs with deposit-taking ability.

Changes in Branch Locations

To the extent changes have been made, the institution's opening and closing of branches has improved the accessibility of its delivery systems, particularly in LMI geographies and to LMI individuals. Since the prior evaluation, HB acquired 16 branches, closed 2 branches, and opened 1 branch in the Washington rated area. Of the 16 acquired branches, 7 are located in moderate-income tracts; though, HB closed 1 of those branches after the acquisition. The other closed branch was located in a middle-income tract. The sole branch opened in this rated area is located in the Spokane AA within a moderate-income geography.

Reasonableness of Business Hours and Services

Services, including business hours, do not vary in a way that inconveniences certain portions of the AAs, particularly LMI geographies and individuals. Services and business hours in the AAs are consistent with the bank's overall performance. Refer to each AA analysis for additional details.

Community Development Services

HB provided an adequate level of community development services in the Washington rated area. During the evaluation period, employees provided 1,619 hours of financial expertise or technical assistance to organizations that serve the Washington AAs. Service hours primarily benefited the Puget Sound AA and focused heavily on community services for LMI individuals. Further details regarding service hours in each AA are discussed in the applicable AA sections of the evaluation.

The bank's community development service activity increased from the previous evaluation, when it received credit for 1,459 service hours. HB's community development service activity falls between that of similarly-situated institutions, whose community development service hours ranged from 1,427 to 10,485 hours within the Washington rated area. The following table illustrates the bank's community development service activity in the Washington AAs by purpose and year.

Community Development Services by Assessment Area – Washington

PUGET SOUND AA – Full-Scope Review

DESCRIPTION OF INSTITUTION'S OPERATIONS IN THE PUGET SOUND AA

The Puget Sound AA generally borders the Puget Sound and consists of the following full counties in the State of Washington that are all part of the Seattle-Tacoma CSA, as defined by the Office of Management and Budget (OMB):

- King County, which forms the Seattle-Bellevue-Kent MD; Pierce County, which forms the Tacoma-Lakewood MD; and Snohomish County, which forms the Everett MD. All three counties compose the Seattle-Tacoma-Bellevue MSA.
- Skagit County, which forms the Mount Vernon-Anacortes MSA;
- Thurston County, which forms the Olympia-Lacey-Tumwater MSA;
- Kitsap County, which forms the Bremerton-Silverdale-Port Orchard MSA; and
- Island and Mason Counties, which are non-MSA counties designated as micropolitan statistical areas part of the Seattle-Tacoma CSA.

Kitsap County was added to the AA on January 31, 2026, with the acquisition of Kitsap Bank. HB operates under the name Whidbey Island Bank at four branches within Island County.

Economic and Demographic Data

According to the 2020 Census, the AA includes 1,070 census tracts: 47 low-, 219 moderate-, 484 middle-, and 299 upper-income, as well as 21 census tracts without income designations. During the evaluation period, 10 census tracts in Mason County were designated as distressed nonmetropolitan middle-income geographies due to unemployment rates significantly higher than the national average. Additionally, the Federal Emergency Management Agency (FEMA) issued major disaster declarations in April 2024 and April 2026 that included parts of the AA due to severe storms, flooding, landslides, and mudslides. The following table details select demographic information for the AA.

Demographic Information – Puget Sound AA						
Demographic Characteristics	**#**	**Low % of #**	**Moderate % of #**	**Middle % of #**	**Upper % of #**	**N/A* % of #**

Seattle-Bellevue-Kent, WA MD (King County)

According to Moody's Analytics as of May 2026, economic growth in King County has slowed in recent years. Contractions in healthcare, construction, and federal government employment have resulted in a steadily increasing unemployment rate during the review period. The MD remains a global center for cloud-computing and software development, and while artificial intelligence technology has supported rapid tech growth, there have been significant job cuts throughout the industry. Aerospace also remains an important sector, as demand remains strong for aircraft manufacturing. Economic strengths of the area include a large port with connections to international markets and a relatively high per capita income. Economic weaknesses include high business and living costs and sensitivity to discretionary spending and interest rates due to a reliance on technology. Top employers in the area include Amazon, Microsoft, the University of Washington, and Boeing.

Tacoma-Lakewood, WA MD (Pierce County)
As of March 2026, indicators point to a slightly stagnating local economy in Pierce County, according to Moody's Analytics. Logistics, a key industry in the area, has been restrained by higher fuel costs and elevated tariff rates. Though shipping volumes are lower, increased military expenditures due to ongoing Middle East conflicts have contributed to significant economic spillover given the large military presence in the MD, which provides a stable base of demand for services. Economic strengths of the area include the military presence and the aerospace and shipping industries, which provide stable mid-wage jobs. An economic weakness of the area is the high cost of living. The top employers in the area are Joint Base Lewis-McChord, MultiCare Health System, Franciscan Health System, and Tacoma Public Utilities.

Everett, WA MD (Snohomish County)
General local economic conditions in Snohomish County are similar to other areas close to the City of Seattle, according to Moody's Analytics as of March 2026. While conflicts in the Middle East have increased fuel prices, global air travel remains robust and Boeing has ordered more consumer aircraft, raising the aerospace industry. The artificial intelligence technology boom has led to financial growth in the tech industry, though accompanied by layoffs and reduced workforces. The housing market is mixed, with housing prices having contracted in recent months and a consistent, lower-than-average number of housing permits being issued. Economic strengths of Snohomish County include the significant concentration of aerospace manufacturing and strong population growth. Economic weaknesses include limited industrial diversity and a high cost of living relative to per capita incomes. Top employers in the area are Boeing, Microsoft, Amazon, and Providence Health.

Mount Vernon-Anacortes, WA MSA (Skagit County)
According to Moody's Analytics as of March 2026, monthly job growth in Skagit County has been well ahead of the State of Washington, driven by gains in private services, particularly leisure and hospitality. Manufacturing, an important industry in the area, faces downward pressure from higher interest rates, tariffs on key inputs, and a decreasing demand for durable goods. The prices of single-family homes have increased, and the price acceleration outpaces the state and national averages. Economic strengths of the county include strong agriculture and timber industries and a diverse manufacturing industry. Economic weaknesses include few high-wage jobs, high employment volatility, and below-average educational attainment. The top employers in the area are Skagit Valley Health, Janicki Industries, Puget Sound Refinery, and Island Hospital.

Olympia-Lacey-Tumwater, WA MSA (Thurston County)
Moody's Analytics as of March 2026 notes that the economy in Thurston County has ground to a near halt, with little employment gains being made in the public or private sectors. Housing prices have grown in line with the national pace, though residential permitting is subdued and low affordability negatively weighs on housing purchases. The proximity of Joint Base Lewis-McChord in neighboring Pierce County helps provide a stabilizing presence. Economic strengths of the area include favorable living and business costs as compared to Seattle and above-average post-secondary educational attainment. Economic weaknesses include overexposure to state government and below-average per capita income. The top employers in the area are Providence Hospital, Safeway, Walmart, and Lucky Eagle Casino.

Bremerton-Silverdale-Port Orchard, WA MSA (Kitsap County)
Local economic indicators in Kitsap County are worrisome as of the March 2026 Moody's Analytics reports. Payroll employment in the MSA is down year-over-year from nearly all industries and led by decreases in federal government employment. Naval Base Kitsap helps to provide economic stability, especially with planned upgrades and increased funding for naval shipbuilding under the One Big Beautiful Bill Act. Economic strengths of the area include the stabilizing presence of Naval Base Kitsap, proximity to Seattle, and above-average educational attainment. Economic weaknesses include a lesser presence of high tech and finance than other areas of the Puget Sound and a lack of other private-sector growth drivers. Top employers in the area include Naval Base Kitsap, Franciscan Medical Group, Olympic College, and Port Madison Enterprises.

Non-MSA areas within the Seattle-Tacoma CSA (Island and Mason Counties)
According to an economic development plan produced by the Board of Island County Commissioners as of 2025, while employment levels in Island County are back to pre-pandemic levels, many employers report difficulty in filling positions. Average wages are lower than the State of Washington while the cost of living has been rising. Housing prices in Island County have increased sharply, with the median home sale price in 2024 over $600,000. Naval Air Station Whidbey Island is the largest employer in Island County and contributes significantly to economic stability in the area. According to a 2026 annual report produced by the Economic Development Council of Mason County, the cost of living in Mason County is 8.7 percent higher than the national average. As a small and mostly rural area, the public sector is the largest source of employment, with the state and local government collectively providing one third of Mason County's jobs. The top individual employers in Mason County are Mason General Hospital, Washington Corrections Center, and Shelton School District.

Competition

According to the FDIC Deposit Market Share Report as of June 30, 2025, 48 FDIC-insured financial institutions shared $151.3 billion in total deposits within the AA. Of these institutions, HB ranked 8th in deposit market share, holding 2.8 percent of the area's deposits. According to the same data, the top 5 institutions are large, national lenders that share a combined 68.7 percent of deposits in the AA, speaking to a highly competitive market for financial services.

Community Contacts

Examiners reviewed recent interviews with organizations that serve the AA in order to better understand the credit and community development needs of the area. Examiners reviewed a community contact with a CDFI serving local entrepreneurs. The representative noted a significant need for small business credit, specifically start-up and working capital, as well as technical assistance. Examiners also reviewed an interview with a representative from a different organization supporting economic development within the AA. The community contact identified an opportunity for banks to meet the need for business loans of approximately $250,000 to $300,000, the level typically required by small businesses as they scale up their operations and financing needs. The contact also spoke of the extremely low housing stock and high cost of housing, especially in King County. Finally, examiners reviewed a recent community contact with an affordable housing

organization in the AA. While the representative described an overall need for more affordable housing, there is a particular need for housing larger than one-bedroom apartments and studios.

Credit and Community Development Needs and Opportunities

Based on demographic and economic information, the primary credit needs in the AA are small business loans and affordable residential real estate loans, particularly to construct multifamily affordable housing projects. As detailed in the lending activity section below, CRA and HMDA reporting institutions originated a greater number of small business loans in the AA than residential real estate loans, speaking to the slightly higher demand and need for commercial credit. As noted by two of the community contacts, there is a particular need for credit to startup businesses and small businesses expanding their operations. The high housing prices and information from the third community contact reflects a need for affordable housing, both affordable rental units and assistance to LMI families in pursuit of homeownership. The high cost of living noted throughout the AA also supports a community development need for community services targeted to LMI individuals

CONCLUSIONS ON PERFORMANCE CRITERIA IN THE PUGET SOUND AA

LENDING TEST

HB demonstrated adequate Lending Test performance in the Puget Sound AA.

Lending Activity

HB's lending levels reflect adequate responsiveness to AA credit needs. During the evaluation period, the bank originated 1,069 small business loans totaling $344.7 million in the AA. This lending volume is a significant decrease from the prior evaluation, where the bank reported 5,837 small business loans totaling $1.1 billion. According to the 2024 aggregate CRA data, HB ranked 23rd out of 164 lenders that reported a total of 128,423 small business loans originated or purchased in the AA with 0.3 percent of the market share by number.

The bank also originated 911 residential real estate loans totaling $472.8 million over the review period. This is a significant decrease from the prior evaluation, where HB reported 1,431 such loans totaling $692.6 million. According to the 2025 aggregate HMDA data, HB ranked 72nd out of 633 lenders that originated or purchased 120,263 residential real estate loans in AA with 0.2 percent of the market share by number.

Geographic Distribution

The geographic distribution of loans reflects adequate penetration throughout the AA. This conclusion results from a geographic distribution of small business loans that reflects adequate penetration throughout the AA, and a geographic distribution of home mortgage loans that reflects poor penetration throughout the AA.

Small Business

The geographic distribution of small business loans reflects adequate penetration throughout the AA. As shown in the table below, HB's rate of lending in low-income census tracts was in line with peer lenders in 2023. Penetration decreased over the review period, with the bank slightly below aggregate data in 2024 and slightly below demographic data in 2025. The bank's distribution of loans in moderate-income census tracts slightly exceeded peer and demographic data in all three years.

Geographic Distribution of Small Business Loans – Puget Sound AA

Residential Real Estate

The geographic distribution of residential real estate loans reflects poor penetration throughout the AA. As shown in the following table, the bank's dispersion of residential real estate loans to low-income tracts was less than half that of other HMDA-reporting lenders in the AA over the entire review period. While the bank's rate of lending in moderate-income tracts was slightly below aggregate in 2023, HB fell significantly below other lenders in 2024 and 2025. As previously

discussed, HB exited traditional consumer mortgage lending in 2024. When considering just open-end residential real estate loans, the bank's lending distribution in moderate-tracts in 2024 and 2025 at 7.2 percent and 7.7 percent, respectively, was still approximately half of what was achieved by other HMDA-reporting lenders in those years at 15.0 percent and 14.6 percent.

Borrower Profile

The distribution of borrowers reflects, given the product lines offered by the institution, poor penetration among business customers of different sizes and retail customers of different income levels. This conclusion results from a distribution of small business borrowers that reflects poor penetration among business customers of different sizes and a distribution of home mortgage borrowers that reflects adequate penetration among retail customers of different income levels.

Small Business

The distribution of small business loans reflects poor penetration among business customers of different sizes. As reflected in the table below, HB's rate of lending to businesses with gross annual revenues (GAR) of $1 million or less fell significantly below that of other CRA-reporting lenders in the AA in 2023 and 2024 and was far below area demographics in 2025. Examiners acknowledge the highly competitive banking environment in the Puget Sound AA, and that the top 10 lenders in the market capturing the vast majority of the market share by number of loans made are national financial institutions and industrial loan companies offering products that may be more accessible to smaller businesses. However, HB's distribution of loans to small businesses also significantly trailed that of more similarly-situated community banks operating in the AA.

HB management also launched targeted marketing campaigns beginning in 2025 in an effort to hit small business lending targets. While examiners note the upward trend in lending to businesses with GARs of $1 million or less over the review period, the disparity between the bank's penetration and that of peer lenders and more similarly-situated community bank lenders is too vast to be mitigated by this context.

Residential Real Estate

The distribution of borrowers reflects adequate penetration among retail customers of different income levels. As shown in the following table, HB's rate of lending to low-income borrowers significantly outperformed aggregate HMDA-reporting lenders in 2023 and 2025 and was in-line with peer in 2024. The bank's rate of lending to moderate-income borrowers was consistent with

aggregate data in 2023 and was modestly below aggregate in 2024. While the bank's penetration to moderate-income borrowers remained consistent in 2025, peer lending performance increased slightly, increasing the lending disparity; however, the bank's borrower profile performance overall is adequate.

Community Development Loans

The institution has made a relatively high level of community development loans. Community development lending decreased by number and dollar amount from the prior evaluation, where the bank made 69 qualified loans totaling $417.3 million; however, this total included a significant number of qualified PPP loans. HB's volume of activity compares favorably to similarly-situated institutions operating in the AA, whose community development loan totals ranged from 14 loans totaling $106.3 million to 45 loans totaling $156.1 million. As shown in the following table, the

majority of loans by number supported community services targeted to LMI individuals and a significant majority of loans by dollar volume supported affordable housing, both of which were identified as primary community development needs in the AA.

Notable examples of community development loans made in the AA include:

- In 2025, the bank made a $22.5 million loan to construct a mixed-use project that will create 70 units of housing specifically set aside for LMI individuals and a public plaza designed to promote community well-being.

- The bank further supported affordable housing initiatives in the AA by funding a $21.8 million loan in 2025 to finance the construction of a project that will create 100 units of affordable housing. The primary mission of the project is to provide permanent supportive housing to disabled and formerly homeless residents in the area.

- HB supported community services targeted to LMI individuals by making a $6.5 million loan in 2024 to an organization that provides emergency food resources to low-income communities in South Seattle.

INVESTMENT TEST

HB demonstrated good Investment Test performance in the Puget Sound AA.

Investment and Grant Activity

The institution has a significant level of qualified community development investments, grants and donations, particularly those that are not routinely provided by private investors, occasionally in a leadership position. Total qualified community development investments grew 7.5 percent from the previous evaluation, where the bank made $91.1 million in qualified investments. The significant majority of qualified community development investments supported affordable housing initiatives, which was identified as a primary community development need in the AA. A majority of qualified community development grants and donations supported community services targeting LMI populations, which is also a community development need in the AA. The following table depicts the annual distribution of qualified community development investments, grants and donations in the Puget Sound AA.

Source: Bank Data										

Below are notable examples of the institution's qualified community development investments:

- In 2023, the institution made a $685,486 LIHTC investment in the redevelopment of a 132-unit market-rate property into a permanently income-restricted affordable housing property in Federal Way, Washington.

- In 2024, the institution made a $22.9 million LIHTC investment in the new construction of an emergency service center in Burien, Washington, that provides 95 housing units for low-income families.

- In 2025, the institution made a $21.3 million LIHTC investment in a 7-story, 86-unit apartment building that provides permanent supportive housing for both low-wage workers and for individuals experiencing homelessness in Seattle, Washington.

Responsiveness to Credit and Community Development Needs

HB exhibits good responsiveness to credit and community development needs. The institution demonstrated responsiveness to the AA through its focus on funding investments targeting the identified community need of affordable housing.

Community Development Initiatives

HB makes significant use of innovative and complex investments in the AA to support community development initiatives. Of the 25 investments made in the AA totaling $96,950 million, 9 investments totaling $74.7 million were LIHTCs, which are considered complex. Refer to bankwide conclusions for additional detail.

SERVICE TEST

HB demonstrated good performance under the Service Test in the Puget Sound AA.

Accessibility of Delivery Systems

Delivery systems are accessible to essentially all portions of the AA. Branch distribution and alternative delivery systems are consistent with the bank's overall performance. HB operates 46 full-service branches and 1 limited-service mobile/seasonal branch in the AA. The full-service branches include 38 locations with ATMs and 34 locations with drive-up capabilities. The limited-service branch, located in a middle-income tract, includes both an ATM and drive-up capabilities. Additionally, HB maintains three ITMs with deposit-taking ability in the AA. One of the ITMs is located in a moderate-income tract. As shown in the following table, the bank's distribution of branches in low-income geographies exceeds the area's demographics, as reflected in 2020 Census data. At 6.5 percent, HB's presence in low-income tracts also exceeds the 5.9 percent of branches operated in these areas by other financial institutions operating in the AA. The bank's distribution of branches in moderate-income geographies also exceeds the AA's demographics and is consistent with the 26.1 percent of branches operated by other institutions. Additionally, 11 branches in middle-income tracts and 3 branches in upper-income tracts are within 1 mile of at least 1 LMI geography, reasonably expanding access to retail banking services to those areas.

Branch and ATM Distribution by Geography Income Level – Puget Sound AA

Tract Income Level	Census Tracts		Population		Full-Service Branches		ATMs	
	#	%	#	%	#	%	#	%
Low	47	4.4	220,159	4.5	3	6.5	1	2.6

Source: 2020 Census Data; Bank Data

Changes in Branch Locations

To the extent changes have been made, the institution's opening and closing of branches in the Puget Sound AA has improved the accessibility of its delivery systems, particularly in LMI geographies and to LMI individuals. HB acquired 12 branches in the AA during the review period: 6 in moderate-income census tracts, 4 in middle-income census tracts, and 2 in upper-income census tracts. The bank subsequently closed one of the acquired branches located in a moderate-income geography. Aside from the acquired branches, HB opened no additional branches in the AA during the review period.

Reasonableness of Business Hours and Services

Services, including business hours, do not vary in a way that inconveniences certain portions of the AA, particularly LMI geographies and individuals. Services and business hours in this AA are consistent with the bank's overall performance; however, the ITMs do offer extended hours (9:00 a.m. to 7:00 p.m.) when compared to branch office locations.

Community Development Services

HB provides an adequate level of community development services in the Puget Sound AA. During the evaluation period, employees provided 1,070 hours of financial expertise or technical assistance to organizations that serve the AA. HB provided the majority of hours to organizations that facilitate community services for LMI individuals. HB's community development service hour activity in the AA decreased since the previous evaluation, when it received credit for 1,265 service hours. HB's community development service activity falls between that of similarly-situated institutions, whose community development service hours ranged from 417 to 4,117 hours within the AA. The following table illustrates the bank's community development service hour activity in the AA by purpose and year.

Community Development Services – Puget Sound AA

Total	**124**	**847**	**61**	**38**	**1,070**
Source: Bank Data					

The following are notable examples of community development services benefiting the AA.

- In 2023 and 2024, an HB officer provided a total of 124 hours of community development service as a Board member for an organization committed to producing, preserving, and increasing equitable access to affordable housing.

- Throughout the review period, an HB officer provided a total of 73 hours of community development service as a Board member for an organization that operates several programs to reduce food access barriers for people experiencing food insecurity.

- In 2024, an HB officer provided a total of 167 hours of community development service as a Board member for an organization dedicated to helping break the cycle of poverty within Latino immigrant communities through employment, education, and community organization programs.

BELLINGHAM AA – Full-Scope Review

DESCRIPTION OF INSTITUTION'S OPERATIONS IN THE BELLINGHAM AA

The Bellingham AA is located in northern Washington, bordered by the Puget Sound and Canada. The AA consists of Whatcom County, which makes up the Bellingham MSA in its entirety. There have been no changes to the AA delineation since the prior evaluation.

Economic and Demographic Data

According to the 2020 Census, the AA consists of 54 census tracts: 1 low-, 12 moderate-, 26 middle-, and 14 upper-income, as well as 1 census tract without an income designation. Additionally, FEMA issued a major disaster declaration in April 2026 due to severe storms, flooding, landslides, and mudslides in the AA. The following table details select demographic information for the area.

Demographic Information – Bellingham AA

Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	N/A* % of #
Geographies (Census Tracts)	54	1.9	22.2	48.2	25.9	1.9

			Median Gross Rent			$1,123
			Families Below Poverty Level			7.3%

Source: 2020 Census and 2024 D&B Data (*) The NA category consists of geographies that have not been assigned an income classification. Due to rounding, totals may not equal 100%.

According to Moody's Analytics as of March 2026, higher gasoline prices will provide temporary support to the refineries located in the Bellingham MSA; however, higher gas fuel prices will also negatively impact tourism, which has already been weak through 2025. Domestic tourism to the area and the region more generally is also dampened by a slowing labor market and increasing living costs. Economic strengths of the AA include high educational attainment and worker productivity, a diverse manufacturing industry, and the stabilizing presence of Western Washington University. Economic weaknesses include an overreliance on the energy sector and low-wage

consumer services and low incomes relative to the cost of living. The top employers in the AA are St. Joseph Medical Center, Western Washington University, Lummi Nation, and Whatcom Community College.

Competition

According to the FDIC Deposit Market Share Report as of June 30, 2025, 14 FDIC-insured financial institutions shared $5.2 billion in total deposits within the AA. Of these institutions, HB ranked 11th in deposit market share, holding 3.3 percent of the area's deposits. According to the same data, the top 3 institutions are large, national lenders that share a total of 45.8 percent of the area's deposits, speaking to a competitive market for financial services.

Community Contact

Examiners reviewed a recent community contact with an organization that promotes economic development, optimizes transportation gateways, and manages publicly owned land and facilities within the AA. While the contact identified small business loans as the primary credit need in the area, they went on to state that local financial institutions appear to be adequately meeting that demand. To illustrate, the organization manages an economic development revolving loan fund, which has had a steady but manageable stream of requests and applications over the review period. The community contact stated that there is limited affordable housing, as housing available for sale tends to be extremely expensive. The contact also noted that it is difficult to get affordable housing projects approved and in development.

Credit and Community Development Needs and Opportunities

Considering the community contact interview, economic and demographic information, and conversations with management, the primary credit needs in the AA are small business and affordable housing loans. Affordable housing also represents a primary community development need. The high cost of living and relatively high percentage of families reported living below the poverty level also speaks to a need for community services targeted to LMI individuals.

CONCLUSIONS ON PERFORMANCE CRITERIA IN THE BELLINGHAM AA

LENDING TEST

HB demonstrated adequate Lending Test performance in the Bellingham AA.

Lending Activity

HB's lending levels reflect good responsiveness to AA credit needs. During the evaluation period, the bank originated 82 small business loans totaling $25.5 million in the AA. This lending volume is a significant decrease from the prior evaluation, where the bank reported 475 small business loans totaling $64.4 million. According to 2024 aggregate CRA data, HB ranked 17th out of 62 lenders that

reported a total of 5,941 small business loans originated or purchased in the AA with 0.3 percent of the market share by number.

The bank also originated 65 residential real estate loans totaling $25.1 million, a decrease from the 227 such loans totaling $115.5 million at the prior evaluation. According to 2025 aggregate HMDA data, HB ranked 69th out of 269 lenders that originated or purchased 5,592 residential real estate loans in the AA with 0.2 percent of the market share by number.

Geographic Distribution

The geographic distribution of loans reflects good penetration throughout the AA. This conclusion results from a geographic distribution of small business loans that reflects good penetration throughout the AA and a geographic distribution of home mortgage loans that reflects adequate penetration throughout the AA. As previously described, small business lending performance receives greater weight.

Small Business

The geographic distribution of small business loans reflects good penetration throughout the AA. As shown in the following table, HB's distribution of loans in low-income census tracts was slightly below peer lenders in 2023; however, the bank slightly outpaced other CRA-reporting lenders in 2024 and greatly exceeded business demographics in 2025. The bank's rate of lending in moderate-income tracts exceeded aggregate in 2023 and was double that of other CRA-reporting lenders in 2024. While performance decreased in 2025 and was below area demographics, overall, the performance is good.

Residential Real Estate

The geographic distribution of residential real estate loans reflects adequate penetration throughout the AA. While the bank made no loans in the one low-income census tract in the AA in all three years, there is very little opportunity or credit demand in that geography; refer to the following table. HB's lending penetration in moderate-income tracts exceeded peer in 2023 and was in line with aggregate data in 2024. Although the bank made no residential real estate loans in moderate-income tracts in 2025, it is difficult to draw meaningful conclusions from such a small universe of 10 loans. Overall, HB's performance under this criterion is adequate.

Borrower Profile

The distribution of borrowers reflects, given the product lines offered by the institution, adequate penetration among business customers of different sizes and retail customers of different income levels. This conclusion results from a distribution of small business borrowers that reflects adequate penetration SB and poor penetration HMDA.

Small Business

HB's distribution of borrowers reflects adequate penetration among business customers of different sizes. As shown in the following table, HB's rate of lending to small businesses with GARs of $1 million or less was below aggregate in 2023, but not to an unreasonable degree. Performance decreased in 2024, and the bank was modestly below other CRA-reporting lenders in the AA; however, performance increased in 2025 and was in line with historical aggregate levels.

Residential Real Estate

The distribution of borrowers reflects poor penetration among retail customers of different income levels. As shown in the following table, the bank exceeded peer lending to low-income borrowers in 2023 and 2024, but in 2025 the bank made no residential retail loans to low-income borrowers. Additionally, HB significantly trailed aggregate in 2023 and made no loans to moderate-income borrowers in 2024. While the bank was in line with aggregate in 2025, overall, the bank's performance is poor. HB's borrower profile performance when only considering open-end residential real estate loans is also poor and does not mitigate overall lending performance under this criterion.

Community Development Loans

HB has made a relatively high level of community development loans in the AA. Community development lending increased slightly by number and dollar amount since the prior evaluation, where the bank made 3 qualified loans totaling $16.8 million. As shown in the following table, community development lending targeted affordable housing and community service initiatives, both of which were identified as essential community development needs in the AA. HB's volume of activity compares favorably to that of similarly-situated institutions operating in the area, which provided between 1 loan totaling $100,000 to 5 loans totaling $43.0 million at their most recent FDIC CRA performance evaluations.

Notable examples of community development loans made in the AA include:

- In 2023, HB made a $3.5 million loan to an organization that provides education, supportive services, and direct assistance to homeless and low-income families. Programs to support self-sufficiency include food, emergency shelter, eviction prevention, and early childhood education.

- In 2024, the bank supported affordable housing initiatives by funding a $15.0 million loan to develop a mixed-use project that will create 65 units of housing specifically for LMI individuals. While the primary purpose of the project is affordable housing, the project will also include a childcare and early development center that will predominantly serve LMI families, demonstrating a comprehensive investment in housing, education, and health for the most vulnerable communities in the AA.

- The bank further supported community services by funding a $3.1 million loan in 2024 to an organization that provides residential care and outpatient mental health care treatment primarily to LMI individuals in the AA.

INVESTMENT TEST

HB demonstrated good Investment Test performance in the Bellingham AA.

Investment and Grant Activity

The institution has a significant level of qualified community development investments and grants in the Bellingham AA, occasionally in a leadership position, particularly those that are not routinely provided by private investors. Total community development investment dollars declined 21.9 percent from the previous evaluation, where the institution made $17.7 million in total community development investments, grants and donations. Further, the bank's investment activity in the AA were all made prior to the evaluation period. Nonetheless, the institution has a significant level of community development investments and grants relative to the institution's branching presence and lending activity in the Bellingham AA. Additionally, qualified grants and donations increased from 6 donations totaling $14,000 at the previous evaluation to 23 donations totaling $78,000 at the current evaluation, and the bank's total volume of qualified activity compares favorably to similarly situated institutions in the AA.

The following are notable examples of qualified community development grants and donations targeted to the Bellingham AA during the review period:

- In 2023, the institution made a $10,000 donation to an organization that provides housing options for LMI families.

- Also in 2023, the bank made a $5,000 donation to an organization that serves the LMI population in the community with services including food and emergency housing.

Responsiveness to Credit and Community Development Needs

HB exhibits good responsiveness to credit and community development needs. The institution demonstrated responsiveness to the AA through its focus on funding investments targeting the identified community need of affordable housing.

Community Development Initiatives

HB makes significant use of innovative and complex investments in the AA to support community development initiatives. Both of the institution's investments totaling $13.8 billion were LIHTCs, which are considered complex. Refer to bankwide conclusions for additional detail.

SERVICE TEST

HB demonstrated adequate performance under the Service Test in the Bellingham AA.

Accessibility of Delivery Systems

Delivery systems are accessible to essentially all portions of the AA. HB operates two full-service branches in the AA, and both include ATMs and drive-up capabilities. As shown in the following table, the bank's distribution of branches in low-income geographies far exceeds census tract and

population percentages. HB's penetration to low-income tracts also surpasses the 13.2 percent of branches operated by other financial institutions in these areas. The bank's distribution of branches in moderate-income tracts also exceeds demographic information and the 23.5 percent of branches operated by other institutions in these areas of the AA.

Branch and ATM Distribution by Geography Income Level – Bellingham AA								
Tract Income Level	**Census Tracts**		**Population**		**Branches**		**ATMs**	
	#	**%**	**#**	**%**	**#**	**%**	**#**	**%**

Changes in Branch Locations

During the evaluation period, HB did not open or close any branches in the AA; therefore, this criterion did not impact the AA level Service Test conclusions.

Reasonableness of Business Hours and Services

Services, including business hours, do not vary in a way that inconveniences certain portions of the AA, particularly LMI geographies and individuals. Both branches in the AA are full-service and offer all available loan and deposit products. Services and business hours are consistent with the bank's overall performance and similar to those of other banks within the AA.

Community Development Services

HB provided an adequate level of community development services in the Bellingham AA. During the evaluation period, employees provided 98 hours of financial expertise or technical assistance to organizations that serve the AA. HB employees provided the majority of hours to organizations that facilitate community services for LMI individuals. HB's community development activity in the AA increased since the prior evaluation, when it received credit for 39 hours of service. HB's community development service activity trails that of similarly-situated institutions, whose community development service hours ranged from 534 to 951 hours within the AA. However, the other institutions have a greater branch presence in the AA; therefore, HB's volume of activity is adequate. The following table illustrates the bank's community development service hour activity in the AA by purpose and year.

Community Development Services – Bellingham AA					
Activity Year	**Affordable Housing**	**Community Services**	**Economic Development**	**Revitalize or Stabilize**	**Totals**
	#	#	#	#	#

YTD 2026	-	-	-	-	**-**
Total	**18**	**80**	**-**	**-**	**98**
Source: Bank Data					

The following are notable examples of community development services benefiting the AA.

- In 2023 and 2024, an HB employee provided a total of 80 hours of community development service as a Board member for an organization focused on assisting community college students by providing scholarships, grants, emergency funding, and access to a food pantry.

- In 2023 and 2024, an HB officer provided a total of 18 hours of community development service as a Board member for an affordable housing organization that assists people in obtaining financing and building their own homes.

OTHER ASSESSMENT AREAS – Limited-Scope Review

CONCLUSIONS ON PERFORMANCE CRITERIA IN THE LIMITED-SCOPE ASSESSMENT AREAS

The following table summarizes HB's performance in the AAs evaluated using limited-scope procedures as compared to the bank's performance in the Puget Sound AA area. Performance conclusions are based on a review of available facts and data, aggregate lending comparisons, and demographic information. The Puget Sound AA received the greatest consideration in determining rated area conclusions, followed in decreasing weight by the Bellingham, Yakima, Washington Non-MSA, and Longview AAs.

Assessment Area	Lending Test	Investment Test	Service Test
Yakima	Below	Consistent	Below
Washington Non-MSA	Consistent	Below	Below
Longview	Consistent	Below	Below

There are no differences in loan products or alternative delivery systems offered, and no material differences in business hours at the branches located in the limited-scope AAs as compared to the Puget Sound AA. Refer to the appendices for additional demographic data and market share information for each limited-scope AA.

Yakima

The Yakima AA is located in southern Washington and consists of Yakima County, which composes the Yakima MSA in its entirety. Delivery systems are reasonably accessible to essentially

all portions of the AA. HB operates three full-service branches in the AA: one in a low-income census tract, and two branches in middle-income census tracts. Branch locations did not change in the AA during the review period.

Washington Non-MSA

The Washington Non-MSA AA consists of the entirety of San Juan County and portions of Clallam and Jefferson Counties, areas around the Puget Sound that not part of MSAs or CSAs as defined by the OMB. Delivery systems are accessible to essentially all portions of the AA. HB operates five full-service branches in the AA: one in a low-income census tract, and four branches in middle-income census tracts. HB closed one branch located in a middle-income census tract during the review period.

PORTLAND MULTISTATE AA

CRA RATING FOR THE PORTLAND MULTISTATE AA: SATISFACTORY

The Lending Test is rated: Low Satisfactory
The Investment Test is rated: High Satisfactory
The Service Test is rated: Low Satisfactory

DESCRIPTION OF INSTITUTION'S OPERATIONS IN THE PORTLAND MULTISTATE AA

HB operates six branches in the Portland Multistate AA, which is located in the greater Portland area, specifically Clark County in the State of Washington and Washington and Multnomah Counties in the State of Oregon. The counties are part of the Portland-Vancouver-Hillsboro MSA. There have been no changes to the AA delineation since the prior evaluation.

Economic and Demographic Data

According to the 2020 Census data, the AA consists of 446 census tracts: 11 low-, 108 moderate-, 195 middle-, and 129 upper-income, as well as 3 census tracts without income designations. Additionally, FEMA issued major disaster declarations in April 2024 and April 2026 that included parts of the AA due to severe storms, flooding, landslides, and mudslides. The following table details select demographic information for the AA.

Demographic Information – Portland Multistate AA						
Demographic Characteristics	**#**	**Low % of #**	**Moderate % of #**	**Middle % of #**	**Upper % of #**	**N/A* % of #**

			Median Gross Rent			$1,367
			Families Below Poverty Level			6.7%

Source: 2020 Census and 2024 D&B Data (*) The NA category consists of geographies that have not been assigned an income classification. Due to rounding, totals may not equal 100%.

According to Moody's Analytics as of May 2026, the Portland Multistate MSA economy is struggling, with total payroll employment down 2.5 percent year-over-year and a jobless rate higher than the national average. Employment decreases are broad-based, with losses in nearly every major sector, including healthcare, which has historically been a growth driver. Economic strengths of the AA include a diversified economy and skilled workforce and high quality of life. Economic weaknesses include exposure to volatile technology and resource manufacturing, and an expensive housing market. The top employers in the AA are Oregon Health & Science University, Providence Health & Services, Intel, and Kaiser Permanente.

Competition

According to the FDIC Deposit Market Share Report as of June 30, 2025, 25 FDIC-insured financial institutions shared $53.6 billion in total deposits within the AA. Of these institutions, HB ranked 9th in deposit market share, holding 1.2 percent of the area's deposits. According to the same data, the top 4 institutions are large, national lenders that share 73.8 percent of the AA's deposits, speaking to a very competitive market for financial services.

Community Contacts

Examiners reviewed a community contact with an organization representing and supporting small businesses within the AA. The contact described slower population growth and a sharp slowdown of housing production in the area. According to the contact, the greatest credit and community development opportunities lie in attracting and retaining talented workers and making sustained investments to underpin the long-term economic vitality of the region. Examiners also reviewed a

community contact with an economic and urban development organization. According to the contact, there has been a pullback in lending by local financial institutions, particularly to small businesses. The contact described the distinct districts throughout the Portland Multistate MSA that foster entrepreneurial innovation, culture, and the arts. The contact identified a need for small business credit and grants and noted an opportunity for financial institutions to work with CDFIs. Finally, examiners reviewed a community contact with an affordable housing organization. The representative stated that there is an extreme deficit of affordable housing, especially for the lowest-income individuals in the area. According to the contact, while short-term shelter capacity has increased, it has not kept up with the need as there are still thousands of homeless individuals living on the streets.

Credit and Community Development Needs and Opportunities

Based on demographic and economic information, community contact interviews, discussions with bank management, and volume of reported loans by product type made in the AA over the review period, the primary credit needs in the AA are small business loans, particularly to small and very small businesses, and home mortgage loans, primarily to LMI borrowers. Primary community development needs are affordable housing, economic development, and community services targeted to LMI individuals, particularly those experiencing homelessness.

SCOPE OF EVALUATION – PORTLAND MULTISTATE AA

Refer to the overall Scope of Evaluation section for details of the scope of evaluation for the Portland Multistate AA.

CONCLUSIONS ON PERFORMANCE CRITERIA IN THE PORTLAND MULTISTATE AA

LENDING TEST

HB's Lending Test performance in the Portland Multistate AA is rated Low Satisfactory.

Lending Activity

HB's lending levels reflect adequate responsiveness to AA credit needs. During the evaluation period, the bank originated 268 small business loans totaling $93.8 million in the AA. This lending volume is a significant decrease from the prior evaluation, where the bank reported 1,311 small business loans totaling $293.2 million. According to 2024 aggregate CRA data, HB ranked 26th out of 136 lenders that reported a total of 52,945 small business loans originated or purchased in the AA with 0.2 percent of the market share by number.

The bank also originated 81 residential real estate loans totaling $103.1 million during the review period, a decrease from the 150 such loans totaling $136.4 million originated at the prior evaluation. According to 2025 aggregate HMDA data, HB ranked 175th out of 551 lenders that originated or purchased 47,205 residential real estate loans in the AA with 0.1 percent of the market share by number.

Geographic Distribution

The geographic distribution of loans reflects adequate penetration throughout the AA. This conclusion results from adequate performance in small business and poor performance in home mortgage lending.

Small Business
The geographic distribution of small business loans reflects adequate penetration throughout the AA. As shown in the following table, the bank's small business lending in low-income geographies was consistent with other CRA-reporting lenders in the AA in 2023. While HB made no loans in low-income tracts in 2024, the bank far exceeded demographic data in 2025. The dispersion of loans to businesses in moderate-income tracts trended upward over the review period. HB slightly trailed peer performance in 2023 and was consistent with aggregate in 2024. The bank slightly exceeded the AA's business demographics in 2025.

Residential Real Estate

The geographic distribution of residential real estate loans reflects poor penetration throughout the AA's LMI geographies. As shown in the following table, the bank made no residential real estate loans in low-income census tracts in 2023 but vastly exceeded peer in 2024 and 2025. HB's rate of lending in moderate-income tracts was significantly below that of other HMDA-reporting lenders over the entire review period. Examiners do note the upward trend in lending in moderate-income geographies over the review period, the disparity between the bank and other lenders in the AA is too significant to be mitigated by this context. Keeping in mind the bank's change in business strategy, examiners reviewed the bank's HELOC lending to LMI borrowers in 2024 and 2025 relative to the performance of other lenders reporting open-end residential real estate loans in those years, which supported poor performance. Overall, the bank's lending performance is poor.

Borrower Profile

The distribution of borrowers reflects, given the product lines offered by the institution, poor penetration to business customers of different sizes and retail customers of different income levels.

Small Business

HB's distribution of borrowers reflects poor penetration among business customers of different sizes. As shown in the following table, HB's distribution of loans to businesses with GARs of $1 million or less was far below aggregate data in 2023 and penetration decreased significantly in 2023 and 2025. The bank compared unfavorably to aggregate lenders and similarly-situated community banks operating in the AA.

Residential Real Estate

HB's distribution of borrowers reflects poor penetration among customers of different income levels. As shown in the following below, the bank's rate of lending to low-income borrowers greatly exceeded peer lenders in 2023 and 2024. HB's performance was in line with aggregate in 2025. However, the bank's distribution of residential real estate loans to moderate-income borrowers fell significantly below that of other HMDA-reporting lenders in all three years. Overall, the bank's performance is poor, especially considering the greater credit demand presented by moderate-income borrowers in the AA.

Community Development Loans

HB has made a relatively high level of community development loans in the AA. Community development lending decreased slightly by number and dollar amount since the prior evaluation, where the bank made 35 qualified loans totaling $98.2 million. HB's volume of community development activity compares well to that of similarly-situated institutions operating in the AA, which provided between 8 qualified loans totaling $26.7 million and 37 loans totaling $56.7 million at their most recent FDIC performance evaluations. As shown in the following table, a majority of loans by number supported community services targeted to LMI individuals and a significant majority by dollar amount supported affordable housing in the AA. A significant amount of activity by dollar was also targeted to economic development initiatives. Affordable housing, community services, and economic development were identified as community development needs in the AA.

Notable examples of community development loans made in the AA include:

- In 2023, HB supported affordable housing initiatives by making a $17.7 million loan to construct a multifamily residence specifically for low-income seniors. All 82 units of housing will be income-restricted, with 17 units reserved for seniors exiting homelessness. Additionally, the project will have offices and private spaces for service providers and health care professionals to administer wraparound services to the residents.

- HB supported community services through a $3.0 million loan in 2024 to an organization that provides education, physical and mental health services, and substance abuse treatment to LMI Native American individuals in the AA.

- In 2026, the bank also made a $28.2 million loan to fund the construction of project that will create 78 units of affordable housing, with a particular focus on LMI seniors and individuals with intellectual and developmental disabilities.

INVESTMENT TEST

HB's Investment Test performance in the Portland Multistate AA is rated High Satisfactory.

Investment and Grant Activity

The institution has a significant level of qualified community development investments, grants and donations, particularly those that are not routinely provided by private investors, occasionally in a leadership position. Total qualified community development investments grew 51.2 percent from the previous evaluation, where the bank made $35.5 million in qualified investments. The significant majority of qualified community development investments supported affordable housing initiatives, which was identified as a primary community development need in the AA. A majority of qualified community development grants and donations supported community services targeting LMI populations, another AA community development need. The following table depicts the annual distribution of qualified community development investments, grants and donations in the Portland Multistate AA.

Below are notable examples of the institution's qualified community development investments:

- In 2025, the institution made a $22.8 million LIHTC investment in the new construction of an 82-unit housing facility for LMI seniors in Vancouver, Washington.

- In 2025, the institution made a $1.2 million LIHTC investment in the new construction of a 116-unit affordable housing community targeting LMI families in Tualatin, Oregon.

- In 2025, the institution made a $531,916 LIHTC investment in the new construction of 61 units of permanent supportive deeply affordable housing in Portland's Central Eastside for people exiting homelessness

Responsiveness to Credit and Community Development Needs

HB exhibits good responsiveness to credit and community development needs. The institution demonstrated responsiveness to the AA through its focus on funding investments targeting the identified community development need of affordable housing.

Community Development Initiatives

HB makes significant use of innovative and complex investments in the AA to support community development initiatives. Of the institution's 13 investments, 7 totaling $43.7 million were LIHTCs, which are considered complex. Refer to bankwide conclusions for additional detail.

SERVICE TEST

HB's Service Test performance in the Portland Multistate AA is rated Low Satisfactory.

Accessibility of Delivery Systems

Delivery systems are reasonably accessible to essentially all portions of the AA. Branch distribution and alternative delivery systems are generally consistent with the bank's overall performance. HB operates six full-service branches in the AA, two of which offer drive-up banking, though none have ATMs. As shown in the following table, HB does not operate any branches in low-income census tracts, which is below area demographics and the 2.3 percent of branches operated by other institutions in these geographies. However, at 33.3 percent, the bank's distribution of branches in moderate-income geographies slightly exceeds area demographics and the 31.4 percent of branches operated by other financial institutions in these areas. Additionally, the branch in a middle-income tract, both branches in upper-income tracts, and the branch in a tract without an income designation are all within one mile of at least one LMI geography, reasonably increasing access to retail banking services to these areas.

Changes in Branch Locations

To the extent changes have been made, the institution's record of opening and closing branches has improved the accessibility of its delivery systems, particularly in LMI geographies and to LMI individuals. HB opened one branch located in a moderate-income census tract while closing one branch located in an upper-income census tract since the prior evaluation.

Reasonableness of Business Hours and Services

Services, including business hours, do not vary in a way that inconveniences certain portions of the AA, particularly LMI geographies and individuals. In this AA, all branches are full-service and offer all available loan and deposit products. Services and business hours are consistent with the bank's overall performance and similar to those of other banks within this AA.

Community Development Services

HB provided an adequate level of community development services in the Portland Multistate AA. During the evaluation period, employees provided 1,079 hours of financial expertise or technical assistance to organizations that serve the AA. HB employees provided the majority of hours to organizations that facilitate community services for LMI individuals. HB's community development

service hour activity in the AA increased since the prior evaluation, when it received credit for 878 hours. HB's community development service activity falls between similarly-situated institutions, whose community development service hours ranged from 964 to 1,208 hours within the AA. The following table illustrates the bank's community development service hour activity in the AA by purpose and year.

Community Development Services – Portland					
Activity Year	**Affordable Housing**	**Community Services**	**Economic Development**	**Revitalize or Stabilize**	**Totals**
	#	#	#	#	#
2023	79	246	17	-	**342**

Total	**115**	**905**	**59**	**-**	**1,079**
Source: Bank Data					

The following are notable examples of community development services benefiting the AA.

- In 2023 through 2025, two HB officers provided a total of 254 hours of community development service as Board members for an organization that directs funds used to provide legal help to LMI individuals who cannot afford a lawyer.

- In 2023 through 2025, an HB officer provided a total of 166 hours of community development service as a committee member for an organization that provides numerous health and housing services primarily to LMI people struggling with or affected by AIDS.

- In 2024 and 2025, a HB officer provided a total of 146 hours of community development service as a committee member for an organization that provides food, counseling, clothing, and household items to those needing assistance in meeting basic needs.

OREGON

CRA RATING FOR OREGON: SATISFACTORY

The Lending Test is rated: Low Satisfactory
The Investment Test is rated: High Satisfactory
The Service Test is rated: Low Satisfactory

DESCRIPTION OF INSTITUTION'S OPERATIONS IN OREGON

HB operates one branch in the Oregon rated area, which consists of the Eugene AA. The AA is defined as Lane County, located in western Oregon bordering the Oregon Coast, and composes the Eugene-Springfield MSA in its entirety. There have been no changes to the AA delineation since the prior evaluation.

Economic and Demographic Data

According to the 2020 Census Data, the AA includes 93 census tracts: 23 moderate-, 44 middle-, and 23 upper-income, as well as 3 census tracts without income designations. Additionally, FEMA issued major disaster declarations in April 2024 and April 2026 that included the AA due to winter storms, flooding, landslides, and mudslides. The following table details select demographic information for the AA.

Demographic Information – Eugene AA

Source: 2020 Census and 2024 D&B Data (*) The NA category consists of geographies that have not been assigned an income classification. Due to rounding, totals may not equal 100%.

According to Moody's Analytics as of March 2026, total payrolls are down 1.0 percent year-over-year in the Eugene MSA despite job gains in the healthcare sector. The AA's economy is reliant on

the agricultural economy, which is facing downward pressure from protectionist trade policies and increasing fuel costs due to conflicts in the Middle East. The University of Oregon, the top employer in the area, faces budgetary and enrollment challenges that will shake its economic stability in the short-term. Despite these challenges, the university remains an economic strength in the AA, as student spending and a steady influx of travelers for university events helps foster private sector growth. An additional economic strength is low business costs, especially office rents. Economic weaknesses include below-average per capita income, a high poverty rate, and low housing affordability. The top employers in the AA are the University of Oregon, PeaceHealth Medical Group, Lane Community College, and McKenzie-Willamette Medical Center.

Competition

According to the FDIC Deposit Market Share Report as of June 30, 2025, 14 FDIC-insured financial institutions shared $6.7 billion in total deposits within the AA. Of these institutions, HB ranked 13th in deposit market share, holding 0.5 percent of the area's deposits. According to the same data, the top 5 institutions are large, national and regional lenders that share 67.4 percent of the AA's deposits, speaking to a competitive market for financial services.

Community Contacts

Examiners reviewed a recent community contact with an organization that provides technical support to small businesses in the AA. The representative noted that challenges faced by entrepreneurs and employees include a difficult business climate, affordable housing, the high cost of childcare, and homelessness. In the contact's opinion, the business environment in the Eugene MSA is uncompetitive due to a lack of a regional economic development strategy and difficulty creating jobs. Insufficient affordable housing, inadequate childcare, and a substantial homeless population makes it difficult to attract new and retain existing businesses and residents.

Examiners also reviewed a community contact with an organization that provides financial support and additional services primarily to LMI individuals. The representative detailed the need for investment in rural areas and underserved communities within the AA. There is a critical need for affordable housing, both affordable rentals and single-family homes that are attainable by LMI individuals. While there is a community development need for affordable housing credit, grants and down payment assistance would be even more responsive and helpful.

Credit and Community Development Needs and Opportunities

Based on demographic and economic information, community contact interviews, discussions with management, and volume of reported loans by product type made in the AA over the review period, the primary credit needs in the AA are home mortgage loans, particularly to LMI individuals, and small business loans, particularly to startup and small businesses. The primary community development needs are affordable housing, community services, and activities to revitalize and/or stabilize areas of the AA.

SCOPE OF EVALUATION – OREGON

Refer to the overall Scope of Evaluation section for details of the scope of evaluation for the Oregon rated area.

CONCLUSIONS ON PERFORMANCE CRITERIA IN OREGON

LENDING TEST

HB's Lending Test performance in Oregon is rated Low Satisfactory.

Lending Activity

HB's lending levels reflect adequate responsiveness to AA credit needs. During the evaluation period, the bank originated 63 small business loans totaling $20.4 million. According to 2024 aggregate CRA data, HB ranked 18th out of 81 lenders that reported a total of 6,618 small business loans originated or purchased in the AA with 0.3 percent of the market share by number. The bank also originated 29 residential real estate loans totaling $14.7 million during the review period. According to 2025 aggregate HMDA data, HB ranked 125th out of 312 lenders that originated or purchased 9,120 residential real estate loans in the AA with less than 0.1 percent of the market share by number.

Geographic Distribution

The geographic distribution of loans reflects adequate penetration throughout the AA. Adequate performance in small business and poor performance in home mortgage lending support this conclusion. There are no low-income census tracts within the AA; therefore, analysis focuses on the bank's geographic distribution of loans in moderate-income areas.

Small Business
HB's geographic distribution of small business loans reflects adequate performance. As shown in the following table, HB's rate of small business lending in moderate-income census tracts fell below that of other CRA-reporting lenders in the AA in 2023; however, the bank was in line with aggregate data in 2024. Penetration further improved in 2025 and HB's distribution in these geographies exceeded business demographics.

Residential Real Estate

HB's geographic distribution of home mortgage loans reflects poor performance. As with HB's small business lending, the bank's rate of residential real estate lending in the AA's moderate-income census tracts trended upwards over the review period. Unfortunately, the disparity between the bank's penetration and that of other HMDA-reporting lenders is too significant to be considered adequate. Examiners do note the very low volume of loans made annually, particularly in 2023 and 2025, which makes drawing substantive conclusions from the data difficult.

Borrower Profile

The distribution of borrowers reflects poor penetration among business customers of different sizes and retail customers of different income levels. This conclusion results from poor small business performance and very poor home mortgage lending performance.

Small Business

The distribution of borrowers reflects poor penetration among business customers of different sizes. As shown in the following table, HB's rate of lending to businesses with GARs of $1 million or less was significantly below that of all CRA-reporting lenders in the AA in all three years. Examiners also directly compared the bank's lending penetration in 2023 and 2024 to similarly-situated community banks operating in the AA. The bank's rate of lending compared unfavorably to these other institutions, supporting poor performance.

Distribution of Small Business Loans by Gross Annual Revenue Category – Eugene AA

Residential Real Estate

The distribution of borrowers reflects very poor penetration among retail customers of different income levels. As shown in the following table, HB made no loans to LMI borrowers over the review period. Again, examiners note the low volume of residential real estate loans made each year and correspondingly gave less weight to this product in determining overall conclusions.

Community Development Loans

HB has made a relatively high level of community development loans; see the following table. Total community development loans over the evaluation period include 4 loans totaling $6.5 million specifically targeted to the Eugene AA and 4 loans totaling $5.7 million benefiting areas of Oregon outside of the bank's AA. At the prior evaluation, the bank made 1 qualified $2.6 million loan during the limited time period the AA was in place. HB's volume of activity compares favorably to similarly-situated institutions operating in the AA, which provided between 2 loans totaling $8.7 million and 5 loans totaling $16.4 million at their most recent CRA performance evaluations. As shown in the following table, community development lending primarily supported affordable housing and community services directed to LMI individuals, which were both identified community development needs in the AA.

Community Development Lending – Oregon										
Activity Year	**Affordable Housing**		**Community Services**		**Economic Development**		**Revitalize or Stabilize**		**Totals**	
	#	**$(000s)**	**#**	**$(000s)**	**#**	**$(000s)**	**#**	**$(000s)**	**#**	**$(000s)**
2023	-	-	-	-	-	-	-	-		
2024	2	4,510	2	3,600	-	-	-	-	4	8,110

Source: Bank Data										

The following are notable examples of community development loans that benefited the greater State of Oregon:

- In 2024, the bank made a $3.0 million loan to an organization that provides essential supportive services to LMI individuals. Programs include the operation of food pantries and provision of homeless services.

- Also in 2024, HB made a $1.9 million loan to help develop a 30-unit affordable housing community targeted to LMI and formerly homeless veterans.

Notable examples of community development loans targeted to the Eugene AA include:

- HB supported affordable housing by funding a $2.6 million loan in 2024 and a $2.4 million loan in 2025 that will create a combined 75 units of housing specifically set aside for LMI individuals.

- In 2025, the bank made a $1.4 million loan to help finance the establishment of an opioid addiction treatment facility in a moderate-income geography. The organization's clients are also predominantly LMI, and the bank's loan will help to meet an essential community service need in the AA.

INVESTMENT TEST

HB's Investment Test performance in Oregon is rated High Satisfactory.

Investment and Grant Activity

The institution has a significant level of qualified community development investments, grants and donations, particularly those that are not routinely provided by private investors, occasionally in a leadership position. Total qualified community development investments remain largely unchanged from the previous evaluation, where the bank also made $8.5 million in qualified community development investments. Though the institution's sole bond investment was made during the previous review period, the institution's level of qualified community development investments and grants in the Eugene AA is considered significant relative to the institution's branching presence

and lending activity in the AA. The institution's performance generally compares favorably to similarly-situated institutions.

The institution's investment supports affordable housing for the AA's LMI populations. A majority of grants and donations supported community services targeting LMI populations, and a majority of grant and donation dollars supported economic development initiatives in the AA. The following table depicts the annual distribution of qualified community development investments, grants and donations in the AA.

Community Development Investments – Eugene AA										
Activity Year	**Affordable Housing**		**Community Services**		**Economic Development**		**Revitalize or Stabilize**		**Totals**

Total	**5**	**8,513**	**24**	**30**	**14**	**32**	**-**	**-**	**43**	**8,575**
Source: Bank Data										

Below are notable examples of qualified grants and donations made over the review period:

- Between 2023 and 2025, the bank made 6 donations totaling $18,300 to an economic development organization.

- Between 2024 and 2025, the bank made 4 donations totaling $8,000 to an organization that provides LMI populations with essential services, including access to emergency food and shelter and other programs.

Responsiveness to Credit and Community Development Needs

HB exhibits good responsiveness to credit and community development needs. The institution demonstrated responsiveness to the AA through its investment targeting the identified community need of affordable housing.

Community Development Initiatives

HB makes occasional use of innovative and complex investments in the AA to support community development initiatives. The institution is an active LIHTC investor; however, none of these investments, which are considered complex, were made in the Eugene AA. Refer to bankwide conclusions for additional detail.

SERVICE TEST

HB's Service Test performance in Oregon is rated Low Satisfactory.

Accessibility of Delivery Systems

Delivery systems are reasonably accessible to essentially all portions of the AA. As previously noted, there are no low-income census tracts in the AA and the analysis is focused on the bank's presence in moderate-income tracts. While the bank has limited branch distribution within the AA, the alternative delivery systems are consistent with the bank's overall performance. HB operates one full-service branch in an upper-income census tract that does not include an ATM or drive-up capabilities. The bank does not operate any branches in moderate-income geographies, which is below demographic data and the 37.6 percent of branches operated in these areas by other institutions. However, HB's branch is within one mile of three moderate-income census tracts, reasonably increasing access to retail banking services in these areas.

Branch and ATM Distribution by Geography Income Level – Eugene AA								
Tract Income Level	**Census Tracts**		**Population**		**Branches**		**ATMs**	
	#	**%**	**#**	**%**	**#**	**%**	**#**	**%**
Low	-	-	-	-	-	-	-	-
Moderate	23	24.7	94,566	24.7	-	-	-	-
Middle	44	47.3	189,431	49.5	-	-	-	-
Upper	23	24.7	92,651	24.2	1	100.0	-	-
NA	3	3.2	6,323	1.7	-	-	-	-
Total	**93**	**100.0**	**382,971**	**100.0**	**1**	**100.0**	-	-
Source: 2020 Census Data; Bank Data								

Changes in Branch Locations

To the extent changes have been made, the institution's record of opening and closing branches has adversely affected the accessibility of its delivery systems, particularly in LMI geographies and to LMI individuals. HB closed one branch in a moderate-income census tract while opening one branch in an upper-income census tract. The new branch is not within immediate proximity to any moderate-income tracts.

Reasonableness of Business Hours and Services

Services, including business hours, do not vary in a way that inconveniences certain portions of the AA, particularly LMI geographies and individuals. In this AA, the sole branch is full-service and offers all of the bank's available loan and deposit products. Services and business hours are consistent with the bank's overall performance and similar to those of other banks within this AA.

Community Development Services

HB provided an adequate level of community development services in the Eugene AA. During the

evaluation period, employees provided 171 hours of financial expertise or technical assistance to organizations that serve the AA. HB employees provided the majority of hours to organizations that facilitate community services for LMI individuals. HB's community development service hour activity in the AA increased since the prior evaluation, when it received credit for 35 hours during a limited review timeframe. HB's community development service activity trails that of a similarly-situated institution operating in the AA, whose community development service hours totaled 1,110. However, that institution operates significantly more branches within the AA compared to HB's singular branch. The following table illustrates the bank's community development service hour activity in the AA by purpose and year.

Community Development Services – Eugene					
Activity Year	**Affordable Housing**	**Community Services**	**Economic Development**	**Revitalize or Stabilize**	**Totals**
	#	#	#	#	#
2023	2	24	-	-	**26**
2024	6	72	32	-	**110**
2025	3	32	-	-	**35**
YTD 2026	-	-	-	-	**-**
Total	**11**	**128**	**32**	**-**	**171**
Source: Bank Data					

The following are notable examples of community development services benefiting the AA.

- In 2023 through 2025, an HB officer provided a total of 76 hours of community development service as a Board member for an organization that guides the design, development, and implementation of strategic initiatives that support health and medical solutions benefiting primarily LMI individuals.

- In 2023 and 2024, an HB officer provided a total of 25 hours of community development service as a committee member for an organization that works to prevent child abuse and neglect through numerous programs and services. Of the families served, approximately 87 percent are at or below the poverty level.

- In 2023 through 2025, an HB officer provided a total of 16 hours of community development service as a committee member for a food bank that is dedicated to reducing hunger by soliciting, collecting, rescuing, growing, preparing, and packaging food for distribution to a network of social service agencies and programs.

IDAHO

CRA RATING FOR IDAHO: SATISFACTORY

The Lending Test is rated: Low Satisfactory
The Investment Test is rated: Low Satisfactory
The Service Test is rated: Low Satisfactory

DESCRIPTION OF INSTITUTION'S OPERATIONS IN IDAHO

HB operates one branch in the Idaho rated area, which is made up of the Boise AA. The AA is defined as Ada, Boise, Canyon, and Gem Counties in southwest Idaho, which are part of the Boise City MSA. There have been no changes to the AA delineation since the prior evaluation.

Economic and Demographic Data

According to the 2020 Census, the AA consists of 190 census tracts: 4 low-, 37 moderate-, 90 middle-, and 58 upper-income, as well as 1 census tract without an income designation. The following table details select demographic information for the AA.

Demographic Information – Boise AA						
Demographic Characteristics	**#**	**Low % of #**	**Moderate % of #**	**Middle % of #**	**Upper % of #**	**N/A* % of #**
Geographies (Census Tracts)	190	2.1	19.5	47.4	30.5	0.5

			Median Gross Rent			$989
			Families Below Poverty Level			6.6%

Source: 2020 Census and 2024 D&B Data (*) The NA category consists of geographies that have not been assigned an income classification. Due to rounding, totals may not equal 100%.

According to Moody's Analytics as of March 2026, the Boise City MSA economy continues to expand, but at a slower pace than prior years. Investments in the area's burgeoning tech sector have helped expand manufacturing and research and development opportunities, driving high-wage employment growth. The presence of nearby Boise State University and Idaho State University also contribute to positive population inflows and a high-skill workforce. In addition to tech and higher

education, healthcare is a major economic driver, but population growth keeps housing needs front and center as housing supply struggles to keep up with demand. Economic strengths of the AA include the growing tech sector and continued presence of government and universities that provide a stable source of public-sector jobs. The top employers in the AA are Saint Luke's Health System, Micron Technology Incorporated, Saint Alphonsus Health System, and Boise State University.

Competition

According to the FDIC Deposit Market Share Report as of June 30, 2025, 24 FDIC-insured financial institutions shared $17.9 billion in total deposits within the AA. Of these institutions, HB ranked 21st in deposit market share, holding 0.1 percent of the area's deposits. The top 3 institutions in the area are large national lenders that share 49.2 percent of deposits in the AA, which results in a highly competitive market for financial services.

Community Contact

Examiners reviewed a recent community contact with an affordable housing organization serving the AA. The contact noted that the AA struggles with older housing stock that is in need of redevelopment and improvements. There is an opportunity to help repurpose existing buildings to accommodate the populations of particularly LMI individuals in need of affordable housing. Developers have had some difficulty in acquiring capital, and more pre-development funding would help avoid delays in much needed housing supply. The contact also noted significant populations of unbanked individuals in the AA, most often coming from refugee and immigrant communities.

Credit and Community Development Needs and Opportunities

Based on demographic and economic information, community contact interviews, discussions with bank management, and volume of reported loans by product type made in the AA over the review period, the primary credit needs in the AA are home mortgage loans, primarily to LMI borrowers, and small business loans, particularly to small and very small businesses. Primary community development needs are affordable housing and community services targeted to LMI individuals, including essential services and access to retail banking services such as checking accounts.

SCOPE OF EVALUATION – IDAHO

Refer to the overall Scope of Evaluation section for details of the scope of evaluation for the Idaho rated area.

CONCLUSIONS ON PERFORMANCE CRITERIA IN IDAHO

LENDING TEST

HB's Lending Test performance in Idaho is rated Low Satisfactory.

Lending Activity

HB's lending levels reflect adequate responsiveness to AA credit needs. During the evaluation period, the bank originated 68 small business loans totaling $12.7 million. According to 2024 aggregate CRA data, HB ranked 40th out of 99 lenders that reported a total of 19,880 small business loans originated or purchased in the AA with 0.1 percent of the market share by number. The bank also originated 10 residential real estate loans totaling $5.7 million during the review period. According to 2025 aggregate HMDA data, HB ranked 280th out of 420 lenders that originated or purchased 31,545 residential real estate loans in the AA with less than 0.1 percent of the market share by number.

Geographic Distribution

The geographic distribution of loans reflects good penetration throughout the AA. This results from a geographic distribution of small business loans that reflects excellent penetration throughout the AA and a geographic distribution of home mortgage loans that reflects poor penetration throughout the AA.

Small Business

HB's geographic distribution of small business loans reflects excellent penetration throughout the AA. As shown in the following table, while the bank made no small business loans in low-income census tracts in 2023 or 2024, there is relatively low opportunity and demand for credit in these areas. Additionally, at 12.1 percent, HB's lending distribution vastly exceeded the 1.8 percent of businesses reported in these areas in 2025. The bank's rate of lending in moderate-income areas significantly exceeded aggregate data in 2023 and 2024 and business demographics in 2025.

Residential Real Estate

HB's geographic distribution of residential real estate loans reflects poor penetration. The bank made no residential real estate loans in low-income census tracts in all three years of the evaluation period; however, there is very little opportunity and demand for such credit, as reflected in aggregate and demographic data. While the HB's penetration in moderate-income tracts slightly exceeded peer in 2023, the bank made no loans in these areas in 2024 or 2025. Examiners note that the very low volume of residential real estate loans made in each year makes it difficult to draw substantive conclusions. However, given that residential real estate lending is a primary product for review and there is a need for residential real estate credit in the AA, particularly in LMI areas and to LMI individuals. Overall, the bank's performance is poor.

Borrower Profile

The distribution of borrowers reflects very poor penetration among business customers of different sizes and retail customers of different income levels.

Small Business

The distribution of borrowers reflects very poor penetration among business customers of different sizes. HB made no loans to businesses with GARs of $1 million or less in 2023. The bank's penetration to small businesses was approximately half that of all aggregate lenders in 2024 and was far below business demographics. HB's performance in 2023 and 2024 as compared to similarly-situated community banks supports very poor performance.

Distribution of Small Business Loans by Gross Annual Revenue Category – Boise AA

Residential Real Estate

The distribution of borrowers reflects very poor penetration among retail customers of different income levels. As noted previously, the very low volume of residential real estate loans made each year makes drawing substantive conclusions difficult. However, the bank made no loans to low-income borrowers over the entire evaluation period and no loans to moderate-income borrowers in 2023 and 2024. While the bank's distribution of loans to moderate-income borrowers exceeded aggregate data in 2025, the bank's performance reflects very poor penetration overall.

Community Development Loans

HB has made a relatively high level of community development loans in the rated area; see the following table. All qualified loans benefited the Boise AA. The bank made no community development loans in the AA at the prior evaluation; however, this was considered reasonable given the timing of the AA's addition during the review period. Consideration was given to HB's presence and lending capacity in the AA, and the bank's volume of community development lending when compared to similarly-situated institutions operating in the AA.

Source: Bank Data										

Notable examples of community development loans made in the AA include:

- In 2025 and 2026, the bank made two loans totaling $8.4 million to an affordable housing organization. The organization develops and manages affordable housing in the AA and offers services including rental and down payment assistance.

- In 2026, HB supported economic development in the AA by making 4 SBA 504 loans totaling $9.0 million. These loans provide flexible underwriting and terms for small businesses and will likely create, retain, and improve jobs for LMI individuals and/or in LMI geographies.

INVESTMENT TEST

HB's Investment Test performance in Idaho is rated Low Satisfactory.

Investment and Grant Activity

The institution has an adequate level of qualified community development investments, grants and donations, although rarely in a leadership position, particularly those that are not routinely provided by private investors. The bank made no qualified investments or donations to the area at the prior evaluation; however, the AA was in place for only part of the review period. At the current evaluation, HB made 20 donations totaling $51,000 targeted to the Boise AA, including 2 donations totaling $5,000 in support of affordable housing initiatives, 12 donations totaling $39,000 in support of community services for LMI individuals, and 6 donations totaling $7,000 in economic development initiatives.

Below are notable examples of the institution's qualified community development grants and donations:

- In 2025 the institution made 2 donations totaling $11,400 to a homeless shelter in the AA.

- In 2025 the institution made a $2,000 donation to an organization that provides homebuyer education, downpayment assistance and homeowner programs to LMI residents.

Responsiveness to Credit and Community Development Needs

HB exhibits adequate responsiveness to credit and community development needs. The institution's grants and donations focus on the provision of community services to LMI populations in the AA.

Community Development Initiatives

HB rarely uses innovative or complex investments to support community development initiatives in the Boise AA. The institution is an active LIHTC investor; however, none of these investments, which are considered complex, were made in the Boise AA. Refer to bankwide conclusions for additional detail.

SERVICE TEST

HB's Service Test performance in Idaho is rated Low Satisfactory.

Accessibility of Delivery Systems

Delivery systems are reasonably accessible to essentially all portions of the institution's AA. While the bank has limited branch distribution within the AA, the alternative delivery systems are consistent with the bank's overall performance. HB operates one full-service branch in the AA that does not include an ATM or drive-up capabilities. As shown in the following table, HB does not operate any branches in low-income census tracts, which is below both demographic data and the 3.4 percent of branches operated by other institutions in the AA. Also, the bank does not operate any branches in moderate-income tracts, which is below the 26.9 percent of branches operated by other institutions. While the bank's single branch is located in an upper-income geography, it is within one mile of LMI tracts, reasonably increasing access to retail banking services in these areas.

Branch and ATM Distribution by Geography Income Level – Boise AA

Tract Income Level	Census Tracts		Population		Branches		ATMs	
	#	%	#	%	#	%	#	%
Low	4	2.1	16,539	2.2	-	-	-	-
Moderate	37	19.5	146,114	19.4	-	-	-	-

Source: 2020 Census Data; Bank Data

Changes in Branch Locations

During the evaluation period, HB did not open or close any branches in the AA; therefore, this criterion did not impact Service Test conclusions for the AA.

Reasonableness of Business Hours and Services

Services, including business hours, do not vary in a way that inconveniences certain portions of the assessment area, particularly LMI geographies and individuals. In this AA, there is only one branch which is full-service and offers all of the bank's loan and deposit products. Services and business hours are consistent with the bank's overall performance and similar to those of other banks within the AA.

Community Development Services

HB provided an adequate level of community development services in the Boise AA. During the evaluation period, employees provided 53 hours of financial expertise or technical assistance to an organization that serves the AA. Two HB officers provided all the service hours to an organization consisting of a consortium of lenders and housing experts dedicated to maximizing the number of affordable housing projects within the community. HB's community development service hour activity in the AA increased since the prior evaluation. At the last evaluation it did not receive any service hour credit. However, HB had recently established a presence in the AA at that time, which resulted in a limited review timeframe. HB's community development service activity in the AA trails other similarly-situated institutions, whose community development service hours ranged from 527 to 1,336 hours. This fact was impacted by HB's limited AA presence and one branch. The following table illustrates the bank's qualified services by purpose and year.

Community Development Services – Boise AA

APPENDICES

LARGE BANK PERFORMANCE CRITERIA

Lending Test

The Lending Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) through its lending activities by considering a bank's home mortgage, small business, small farm, and community development lending. If consumer lending constitutes a substantial majority of a bank's business, the FDIC will evaluate the bank's consumer lending in one or more of the following categories: motor vehicle, credit card, other secured, and other unsecured. The bank's lending performance is evaluated pursuant to the following criteria:

1) The number and amount of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, in the bank's assessment area;
2) The geographic distribution of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, based on the loan location, including:
    i. The proportion of the bank's lending in the bank's assessment area(s);
    ii. The dispersion of lending in the bank's assessment areas(s); and
    iii. The number and amount of loans in low-, moderate-, middle- and upper-income geographies in the bank's assessment area(s);
3) The distribution, particularly in the bank's assessment area(s), of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, based on borrower characteristics, including the number and amount of:
    i. Home mortgage loans low-, moderate-, middle- and upper-income individuals
    ii. Small business and small farm loans to businesses and farms with gross annual revenues of $1 million or less;
    iii. Small business and small farm loans by loan amount at origination; and
    iv. Consumer loans, if applicable, to low-, moderate-, middle- and upper-income individuals;
4) The bank's community development lending, including the number and amount of community development loans, and their complexity and innovativeness; and
5) The bank's use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- and moderate-income individuals or geographies.

Investment Test

The Investment Test evaluates the institution's record of helping to meet the credit needs of its assessment area(s) through qualified investments that benefit its assessment area(s) or a broader statewide or regional area that includes the bank's assessment area(s). Activities considered under the Lending or Service Test may not be considered under the investment test. The bank's investment performance is evaluated pursuant to the following criteria:

1) The dollar amount of qualified investments;
2) The innovativeness or complexity of qualified investments;
3) The responsiveness of qualified investments to available opportunities; and
4) The degree to which qualified investments are not routinely provided by private investors.

Service Test

The Service Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) by analyzing both the availability and effectiveness of the bank's systems for delivering retail banking services and the extent and innovativeness of its community development services.

The bank's retail banking services are evaluated pursuant to the following criteria:

1) The current distribution of the bank's branches among low-, moderate-, middle-, and upper-income geographies;
2) In the context of its current distribution of the bank's branches, the bank's record of opening and closing branches, particularly branches located in low- or moderate-income geographies or primarily serving low- or moderate-income individuals;
3) The availability and effectiveness of alternative systems for delivering retail banking services (*e.g.,* RSFs, RSFs not owned or operated by or exclusively for the bank, banking by telephone or computer, loan production offices, and bank-at-work or bank-by-mail programs) in low- and moderate-income geographies and to low- and moderate-income individuals; and
4) The range of services provided in low-, moderate-, middle-, and upper-income geographies and the degree to which the services are tailored to meet the needs of those geographies.

The bank's community development services are evaluated pursuant to the following criteria:

1) The extent to which the bank provides community development services; and
2) The innovativeness and responsiveness of community development services.

DESCRIPTION OF LIMITED-SCOPE ASSESSMENT AREAS

WASHINGTON

Yakima

The Yakima AA is located in southern Washington and consists of Yakima County, which composes the Yakima MSA in its entirety. There have been no changes to the AA delineation since the prior evaluation. According to the 2020 Census data, the AA consists of 57 census tracts: 1 low-, 15 moderate-, 22 middle-, and 19 upper-income. Additionally, FEMA issued a major disaster declaration in April 2026 that included the AA due to severe storms, flooding, landslides, and mudslides. The following table details select demographic information for the area.

Demographic Information – Yakima AA						
Demographic Characteristics	**#**	**Low % of #**	**Moderate % of #**	**Middle % of #**	**Upper % of #**	**N/A* % of #**

			Median Gross Rent			$880
			Families Below Poverty Level			12.8%

Source: 2020 Census And 2024 D&B Data (*) The NA category consists of geographies that have Not been assigned an income classification. Due to rounding, totals may not equal 100%.

According to the FDIC Deposit Market Share Report as of June 30, 2025, 13 FDIC-insured financial institutions shared $4.0 billion in total deposits within the AA. Of these institutions, HB ranked 7th in deposit market share, holding 5.7 percent of the area's deposits.

According to the 2024 aggregate CRA data, HB ranked 17th out of 41 lenders that reported a total of 1,684 small business loans originated or purchased in the AA with 1.0 percent of the market share by number. According to 2025 aggregate HMDA data, HB ranked 57th out of 237 lenders that reported a total of 4,943 residential real estate loans in the AA with 0.2 percent of the market share by number.

Washington Non-MSA

The Washington Non-MSA AA consists of the entirety of San Juan County and portions of Clallam and Jefferson Counties, areas around the Puget Sound that are not part of MSAs or CSAs as defined by the OMB. There have been changes to the AA since the prior evaluation. The AA included Kittitas County until September 8, 2023, when it was removed due to the closure of the bank's only branch in the area. The partial county delineations of Clallam and Jefferson Counties were added to the AA with the acquisition of Kitsap Bank effective January 31, 2026. HB has elected to define its AA as only the parts of Clallam and Jefferson Counties that it can reasonably serve, given its branch locations and the significant geographic barriers to lending within the full political subdivisions.

Based on the 2020 Census, the AA includes 39 census tracts: 4 moderate-, 24 middle-, and 10 upper-income, as well as 1 census tract without an income designation. During the review period, 5 census tracts in San Juan County were designated as underserved nonmetropolitan middle-income geographies due to their remote and rural nature. Additionally, FEMA issued a major disaster declaration in April 2026 that included parts of the AA due to severe storms, flooding, landslides, and mudslides. The following table details select demographic information for the AA.

Demographic Information – Washington Non-MSA AA						
Demographic Characteristics	**#**	**Low % of #**	**Moderate % of #**	**Middle % of #**	**Upper % of #**	**N/A* % of #**

Washington Non-MSA Median Family Income		$70,452	Median Housing Value			$ 363,966
			Median Gross Rent			$1,037
			Families Below Poverty Level			8.0%

Source: 2020 Census And 2024 D&B Data (*) The NA category consists of geographies that have Not been assigned an income classification. Due to rounding, totals may not equal 100%.

According to the FDIC Deposit Market Share Report as of June 30, 2025, 13 FDIC-insured financial institutions shared $4.4 billion in total deposits within the AA. Of these institutions, HB ranked 13th in deposit market share, holding 1.4 percent of the area's deposits.

According to the 2024 aggregate CRA data, HB ranked 14th out of 58 lenders that reported a total of 3,268 small business loans originated or purchased in the AA with 1.2 percent of the market share by number. According to the 2025 aggregate HMDA data, HB ranked 25th out of 122 lenders that

originated or purchased a total of 397 residential real estate loans with 0.8 percent of the market share by number.

Longview

The Longview AA is located in southwest Washington, along the Oregon border. The AA consists of Cowlitz County, which makes up the Longview-Kelso MSA in its entirety. There have been no changes to the AA delineation since the prior evaluation. According to the 2020 Census, the AA consists of 30 census tracts: 2 low-, 5 moderate-, 14 middle-, and 8 upper-income, as well as 1 census tract without an income designation. Additionally, FEMA issued major disaster declarations in April 2024 and April 2026 that included the AA due to severe storms, flooding, landslides, and mudslides. The following table details select demographic information for the area.

Demographic Information – Longview AA

Median Family Income MSA - 31020 Longview-Kelso, WA MSA		$72,234	Median Housing Value			$ 235,088
			Median Gross Rent			$862
			Families Below Poverty Level			8.8%

Source: 2020 Census And 2024 D&B Data (*) The NA category consists of geographies that have Not been assigned an income classification. Due to rounding, totals may not equal 100%.

According to the FDIC Deposit Market Share Report as of June 30, 2025, 6 FDIC-insured financial institutions shared $856.2 million in total deposits within the AA. Of these institutions, HB ranked 3rd in deposit market share, holding 17.8 percent of the area's deposits.

According to 2024 aggregate CRA data, HB ranked 12th out of 29 lenders that reported a total of 603 small business loans originated or purchased in the AA with 1.5 percent of the market share by number. According to 2025 aggregate HMDA data, HB ranked 62nd out of 238 lenders that originated or purchased a total of 3,848 residential real estate loans in the AA with 0.2 percent of the market share by number.

GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

American Community Survey (ACS): A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five year estimates based on population thresholds.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Community Development: For loans, investments, and services to qualify as community development activities, their primary purpose must:

(1) Support affordable housing for low- and moderate-income individuals;
(2) Target community services toward low- and moderate-income individuals;
(3) Promote economic development by financing small businesses or farms; or
(4) Provide activities that revitalize or stabilize low- and moderate-income geographies, designated disaster areas, or distressed or underserved nonmetropolitan middle-income geographies.

Community Development Corporation (CDC): A CDC allows banks and holding companies to make equity type of investments in community development projects. Bank CDCs can develop innovative debt instruments or provide near-equity investments tailored to the development needs of the community. Bank CDCs are also tailored to their financial and marketing needs. A CDC may purchase, own, rehabilitate, construct, manage, and sell real property. Also, it may make equity or debt investments in development projects and in local businesses. The CDC activities are expected to directly benefit low- and moderate-income groups, and the investment dollars should not represent an undue risk on the banking organization.

Community Development Financial Institutions (CDFIs): CDFIs are private intermediaries (either for profit or nonprofit) with community development as their primary mission. A CDFI facilitates the flow of lending and investment capital into distressed communities and to individuals who have been unable to take advantage of the services offered by traditional financial institutions. Some basic types of CDFIs include community development banks, community development loan funds, community development credit unions, micro enterprise funds, and community development venture capital funds.

A certified CDFI must meet eligibility requirements. These requirements include the following:

- Having a primary mission of promoting community development;
- Serving an investment area or target population;
- Providing development services;
- Maintaining accountability to residents of its investment area or targeted population through representation on its governing board of directors, or by other means;
- Not constituting an agency or instrumentality of the United States, of any state or political subdivision of a state.

Community Development Loan: A loan that:

(1) Has as its primary purpose community development; and

(2) Except in the case of a wholesale or limited purpose bank:

(i) Has not been reported or collected by the bank or an affiliate for consideration in the bank's assessment area as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in Appendix A to Part 203 of this title); and

(ii) Benefits the bank's assessment area(s) or a broader statewide or regional area including the bank's assessment area(s).

Community Development Service: A service that:

(1) Has as its primary purpose community development;

(2) Is related to the provision of financial services; and

(3) Has not been considered in the evaluation of the bank's retail banking services under § 345.24(d).

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Distressed Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as distressed if it is in a county that meets one or more of the following triggers:

(1) An unemployment rate of at least 1.5 times the national average;
(2) A poverty rate of 20 percent or more; or
(3) A population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of 5 percent or more over the 5-year period preceding the most recent census.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into "male householder" (a family with a male householder and no wife present) or "female householder" (a family with a female householder and no husband present).

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (for example, geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (for example, innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Loans: Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area.

Performance under applicable tests is often analyzed using only quantitative factors (for example, geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Low Income Housing Tax Credit: The Low-Income Housing Tax Credit Program is a housing program contained within the Internal Revenue Code of 1986, as amended. It is administered by the U.S. Department of the Treasury and the Internal Revenue Service. The U.S. Treasury Department distributes low-income housing tax credits to housing credit agencies through the Internal Revenue Service. The housing agencies allocate tax credits on a competitive basis.

Developers who acquire, rehabilitate, or construct low-income rental housing may keep their tax credits. Or, they may sell them to corporations or investor groups, who, as owners of these properties, will be able to reduce their own federal tax payments. The credit can be claimed annually for ten consecutive years. For a project to be eligible, the developer must set aside a specific percentage of units for occupancy by low-income residents. The set-aside requirement remains throughout the compliance period, usually 30 years.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Micropolitan Statistical Area: CBSA associated with at least one urbanized area having a population of at least 10,000, but less than 50,000.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.

Nonmetropolitan Area (also known as **non-MSA):** All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.

Small Business Investment Company (SBIC): SBICs are privately-owned investment companies which are licensed and regulated by the Small Business Administration (SBA). SBICs provide long-term loans and/or venture capital to small firms. Because money for venture or risk investments is difficult for small firms to obtain, SBA provides assistance to SBICs to stimulate and supplement the flow of private equity and long-term loan funds to small companies. Venture capitalists participate in the SBIC program to supplement their own private capital with funds borrowed at favorable rates through SBA's guarantee of SBIC debentures. These SBIC debentures are then sold to private investors. An SBIC's success is linked to the growth and profitability of the companies that it finances. Therefore, some SBICs primarily assist businesses with significant growth potential, such as new firms in innovative industries. SBICs finance small firms by providing straight loans and/or equity-type investments. This kind of financing gives them partial ownership of those businesses and the possibility of sharing in the companies' profits as they grow and prosper.

Small Business Loan: A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of $1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in "loans to small farms" as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of $500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Underserved Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as underserved if it meets criteria for population size, density, and dispersion indicating the area's population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing the fixed costs of meeting essential community needs.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, "urban" consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

"Urban" excludes the rural portions of "extended cities"; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.

>75 Employees $100.00/month
- Set Up Fee $150.00

1 The rate is periodically set based on current market conditions and is subject to change without notice. Analyzed account service charges may be offset by collected balances and some may be subject to direct charges. The Earnings Credit amount is calculated by multiplying the Balance Available to Support Services by the Earnings Credit Rate for the analysis period times the number of calendar days in the analysis period, divided by the number of calendar days in the current year. The Earnings Credit Amount will be applied against the Current Period Analyzed Charges to determine the Total Charges Due. For more information please contact your treasury management relationship officer.

2 Deposit Premium is a fee based on the average monthly adjusted ledger balance of your analyzed account, which is based in part on what the bank is assessed and charged for deposit insurance. This premium may vary from the assessment as it is not wholly tied to the same assessment base and may not reflect rebates, credits or exceptions. This fee is subject to change without notice.

3 Contact your relationship manager, treasury management relationship officer or local branch for more information.

4 Heritage Bank ATM includes transactions at MoneyPass network ATMs.

5 Visa charges an International Service Assessment (ISA) fee up to 1% of the total transaction to purchase goods or services in a foreign currency or in U.S. dollars with a foreign merchant (a "Foreign Transaction"). Foreign Transactions include internet transactions made in the U.S. but with a merchant who processes the transaction in a foreign country. This is not a Heritage Bank fee.

6 Overdrafts may be created by checks issued by you, in person, ATM, ACH, or other electronic withdrawals authorized by you or published fees or charges for bank products & services.

All pricing is subject to change without notice, except as otherwise provided by applicable law. Not all fees and charges are eligible for offset through your earnings credit. Some fees and charges may be directly charged to your analyzed account.

2024 Institution Disclosure Statement - Table E-1

Error Status Information

Respondent ID: 0000029012

Institution: HERITAGE BANK

Agency: FDIC - 3

Record Identifier: [11]	Total Composite Records on File	Total Composite Records Without Errors	Total Validity[10] Errors	Percentage of Validity Errors
Transmittal Sheet	1	1	0	0.00%
Small Business Loans	411	411	0	0.00%
Small Farm Loans	11	11	0	0.00%
Community Development Loans	1	1	0	0.00%
Consortium/Third Party Loans (Optional)	1	1	0	0.00%
Assessment Area	19	19	0	0.00%
Total	444	444	0	0.00%

Footnote:

10. A validity edit helps to verify the accuracy of the data reported. An institution's CRA submission that passes all validity edits does not ensure 100% accurate data. True accuracy is determined during the examination process.

11. A record represents one row of data reported to the Federal Reserve Board. This does not in any way represent the number of loans originated or purchased by the institution.

Heritage BANK

Home Mortgage Disclosure Act Notice

Home Mortgage Disclosure Act Notice The HMDA data about our residential mortgage lending are available online for review. The data show geographic distribution of loans and applications; ethnicity, race, sex, age, and income of applicants and borrowers; and information about loan approvals and denials.

This data is available online at the Consumer Financial Protection Bureau's Web site (*www.consumerfinance.gov/hmda*). *HMDA data for many other financial institutions are also available at this Web site.*
